### Home Address

## 1. Education

"Success is to be measured not so much by the position one has reached in life as by the obstacles which have been overcome while trying to succeed." - Booker T. Washington

### A. Degree Programs

- 1985 – 1992     **DrPH**  
Johns Hopkins University  
**Specialization:** Public Health Sociology, and  
Health Issues of Children, Families and People of Color
- 1982 - 1983     **MSW** - Children and Families,  
**MPH** - Behavioral Science  
University of California, Berkeley
- 1976 - 1980     **BA** - Behavioral Psychology  
California State University at Northridge
- 1974 - 1976     **AA** - Liberal Arts  
Santa Monica City College

### B. Post Degree Training and Certification

- 2004             **Certified Evaluation/Performance Review Consultant**  
Office of Program Review, Health Services and Resources Administration (HRSA)  
U.S. Department of Health and Human Services
- 1995-1995       **Faculty Leadership Fellow**  
University of Oklahoma Health Sciences Center  
University of Oklahoma at Oklahoma City
- 1992 - 1992       **Post Doctorate Fellow**  
University of North Carolina at Chapel Hill  
Psychosocial Research Division, School of Social Work
- 1983             **Certified Hemoglobinopathy Counselor/Educator**  
Children's Hospital of Northern California  
State of California, Department of Health, Division of Maternal and Child Health

2. **Academic and Other Professional Experience**

A. **Academic Experience:**

A1. **Current Academic Experience and Appointments:**

2006 – present **Professor of Public Health Research and Practice** (Tenured-Primary)  
Department of Public Health Education  
School of Health and Human Performance  
University of North Carolina at Greensboro

A2. **Other Current Academic Experience and Appointments:**

2006 – present **Adjunct Professor of Maternal and Child Health** (Pending)  
Maternal and Child Health  
School of Public Health  
Univ. of North Carolina, Chapel Hill

2006 – present **Adjunct Professor of Public Health Practice** (Pending)  
Department of Maternal and Child Health  
School of Public Health  
University of Alabama at Birmingham

A3. **Past Academic Experience:**

1999 – 2006 **Associate Professor of Public Health Practice** (Tenured-Primary)  
Department of Maternal and Child Health  
School of Public Health  
University of Alabama at Birmingham

1997- 2006 **Assistant Professor** (Secondary)  
Department of Pediatrics, Division of Hematology/Oncology  
School of Medicine  
University of Alabama at Birmingham

1999- 2006 **Associate Professor** (Secondary)  
School of Social Work  
University of Alabama at Tuscaloosa

1997- 2006 **Co-Director**, Public Health Social Work Program  
Department of Maternal and Child Health/School of Social Work  
University of Alabama at Tuscaloosa and University of Alabama at Birmingham

1997- 2006 **Scholar**  
Lister Hill Center for Health Policy  
University of Alabama at Birmingham

1996-1999 **Assistant Professor** (Tenure Track)  
Department of Maternal and Child Health  
School of Public Health  
University of Alabama at Birmingham

1992-1996 **Assistant Professor (Tenure Track)**  
Maternal and Child Health

School of Public Health  
U of North Carolina, Chapel Hill

**A4. Other Past Academic Experience and Appointments:**

- 2004 – 2006     **ASPH Public Health Practice Co-Coordinator**  
School of Public Health  
University of Alabama at Birmingham
- 2004 – 2006     **Associate Director for Research and Evaluation**  
Center for Health Promotion  
University of Alabama at Birmingham
- 2001-2004     **Affirmative Action Officer/ Chair, Diversity and Affirmative Action Advisory  
Committee**  
School of Public Health  
University of Alabama at Birmingham
- 1999 – 2000     **Chair, Masters Degree/Dept. Curriculum Program**  
Department of Maternal and Child Health  
School of Public Health  
University of Alabama at Birmingham
- 1997- 2006     **Director, Division of Social, Health Services and Community-based Research**  
UAB Comprehensive Sickle Cell Center  
School of Medicine  
University of Alabama at Birmingham
- 1995-1996     **Associate Director, Division of Policy and Ethics**  
Duke/UNC Comprehensive Sickle Cell Program  
Duke University Medical Center
- 1994-1996     **Faculty - Community Based Public Health Initiative**  
Center for Public Health Practice  
School of Public Health  
University of North Carolina, Chapel Hill
- 1993 – 1994     **Exchange Faculty, North Carolina Department of Environment, Health, and Natural Resources**  
– Division of Maternal and Child Health, funded by a grant from the Health Research Services  
Administration of NIH..
- 1993-1996     **Faculty Associate/Scientist**  
Center for Public Health Practice  
School of Public Health  
University of North Carolina, Chapel Hill
- 1992-1996     **Co-Director, Public Health**  
Social Work Program  
Maternal and Child Health/ School of Social Work  
University of North Carolina, Chapel Hill
- 1987-1988     **Guest Lecturer - Children's Hospital Medical Center of Northern California Pediatric  
Rehabilitation Staff Training Program Social Work and Adjunct Medical Staff Core Lectures**
- 1987-1991     **Guest Lecturer - Socio-cultural Aspects of Single-Gene Counseling and Barriers to Care. State  
of California Hemoglobinopathy Educators and Counselor Training Course Northern California  
Program Lecture series.**
- 1987            **Course Administrator and Head Teaching Assistant**

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

"Social and Behavioral Aspects of Public Health" Johns Hopkins University School of Hygiene and Public Health, Department of Behavioral Sciences and Health Education Spring, Summer and Fall 1987.

- 1987        **Lab Instructor** - "Introduction to Computing" Johns Hopkins University School of Hygiene and Public Health, Department of Biostatistics, Summer 1987.
- 1986        **Teaching Assistant** - "Social and Behavioral Aspects of Public Health"  
Johns Hopkins University School of Hygiene and Public Health Department of Behavioral Sciences and Health Education. Summer and Fall 1986.

### **A5. Academic Honors and Awards**

- 1980-1982 Graduate Minority Fellow  
University of California, Berkeley
- 1981-1982 William Hinkley Scholarship  
University of California, Berkeley
- 1981-1982 Dean Liaison for the Graduate School of Social Welfare Student Body  
University of California, Berkeley
- 1981-1982 Chairperson Graduate School of Social Welfare Black Caucus  
University of California, Berkeley
- 1981-1982 Chairperson Graduate School of Social Welfare Third World Caucus  
University of California, Berkeley
- 1986-1988 Fellow, Biomedical Research and Study Fellowship  
Johns Hopkins University, School of Hygiene and Public Health
- 1986-1987 Co-Chair, Third World Student Association  
Johns Hopkins University, School of Hygiene and Public Health
- 1985-1987 Student Representative Minority Concerns Committee  
Johns Hopkins University, School of Hygiene and Public Health
- 1992-1992 NIMH Award for Support of Participation in a Short Course on Mental Health Services Research,  
African American Research Center  
University of Michigan, Ann Arbor Michigan July 1-3, 1992

### **B. Professional Experience:**

#### **B1. Professional Practice (Prior to Academia)**

- 1988-1991 Children's Hospital Medical Center  
1983-1985 747 52nd Street  
Oakland, California 94609
- Pediatric Sickle Cell Social Worker:
- Coordination of supportive inpatient, outpatient and community-based clinical social services for children from birth to age 18 suffering from sickle cell disease, Thalassemia and related illnesses, provide Psychosocial counseling to children and their families, provide consultation to physicians and hospital personnel on psychosocial problems of the patient and work with educational and other community resources as an advocate for the child. - Venice Community Church  
522 Venice Boulevard  
Venice, California 91291
- Outreach Counselor for Community Youth:
- Assisted with coordinating the agency's three programs for the youths (6 to 15) in a high-risk poor community, with other volunteers, doing a bi-annual needs and impact assessment of the program. Worked in recruiting community volunteers and resource agencies to aid in the needs of the program.

B2. Public Health Practice Expert Advisories and Panels Based on Recognized Scholarship and Expertise

*The body of work to follow is based on the utilization of my acquired knowledge, skills and competencies and my commitment to the promotion of and engagement in Academic Public Health Practice. The **overarching approach** that defines this and other work to follow is based on the adoption of the definition of Academic Public Health Practice of the Association of Schools of Public Health (ASPH) that seeks to bring together the two worlds of the pragmatic needs of the practitioner and the academic quest to advance knowledge and understanding. Thus, Academic Public Health Practice is “the strategic, organized and interdisciplinary application of knowledge, skills and competencies necessary to perform essential public health services and other activities to improve the population’s health.” (Demonstrating Excellence in Academic Public Health Practice, ASPH 1999)*

**Name:** National Center for Cultural Competence (NCCC) (HRSA/MCHB - Tawara Goode, MPH, Director)

**Role/Area of Expertise:** Senior Advisor/Consultant, Public Health Practice; research and evaluation on the measurement and application of diversity and culturally and linguistic competence in agencies programs and institutions at the local state and national levels

**Dates:** 11/2004 - present

**Summary of Advisory work:** As an **Measure and Evaluation of Diversity, Health Disparities and Cultural Competence Expert**, based on **selection by the HRSA/MCHB, NCCC leadership and staff**, provide expert advice and work with the NCCC to: a) Conduct critical reviews of national data sets for issues related to cultural and linguistic competence and diverse populations; b) Conduct a critical review of any product the NCCC develops; c) Participate in joint presentations at conferences; d) Provide TA via conference calls or onsite for Title V CSHCN programs; and e) When possible jointly publish peer-reviewed articles and related materials.

**Name:** Secretary’s Advisory Committee on Genetics, Health, and Society (DHHS)

**Role/Area of Expertise:** Member, Applied genetics - social, ethical and practice issues and methods

**Dates:** 8/2004 – Present

**Summary of Advisory work:** **This was a peer reviewed appointment.** As the **Public Health Practice Expert** to provide expert advice and make recommendations to the committee and the Secretary of DHHS in the exploring and addressing requests from DHHS and other government and private agencies on non-medical applications of the advances in human genetics in areas such as education, employment, discrimination, the use and misuse of genetic information, the societal implications of new medical applications, gaps in new research and data collection, and policy effecting insurance, health, disability and long-term care practices.

**Name:** Institute for Child Health Policy, Division of Policy and Programs (John Reiss, PhD., Director)

**Role/Area of Expertise:** Public Health Practice Advisor; research and Evaluation on Adolescents with Special Health care needs

**Dates:** 6/2001 - present

**Summary of Advisory work:** As an **Children and Adolescent with Special Health (CSHCN) Care Needs Expert**, based on selection by the division director, work with ad hoc advisory committees to review planned projects on of prevention, transition to adult care and related issues of adolescents with special health care needs; assist as-needed with development of methodology sections of planned research and evaluation efforts; participate in professional training.

**Name:** National Technical Advisory Panel for the Healthy Start Evaluation, HRSA-MCHB,

**Role/Area of Expertise:** Member, Evaluation, Practitioner and Measurement Expert

**Dates:** 8/2000-present

**Summary of Advisory work:** **This was a peer reviewed appointment** As the **Community-based Evaluation Expert** to serve on a panel of policy, program and evaluation experts to advise the Federal Healthy Start Evaluation effort. Major role on the project includes review of the proposed and final national evaluation design and provide ongoing advice on strategy, implementation and measurement issues for the community-based implementation of the evaluation.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Name:** Sickle Cell Disease Advisory Committee, Division of Blood Disease and Resources, National Heart, Lung and Blood Institute, NIH (4/2000 – 8/2004)

**Role/Area of Expertise:** Member, Clinical Care; Social and Community-based Research; Public Health practice

**Dates:** 4/2000 to present

**Summary of Advisory work:** This was a peer reviewed appointment. As the **Public Health Practice Expert** and a **Clinical Practice Expert** to serve on a panel of basic and clinical research, policy and federal agency experts to provide expert advice and make recommendations to the National Heart, Lung and Blood Institute's Sickle Cell Branch on a broad range of scientific and policy issues in such areas as basic science and clinical trials research, federal legislation, consumer and other stakeholder issues and new and continuing programs like the 10 Centers of Excellence and proposals for new research and clinical networks.

**Name:** National Advisory Committee on Cultural Competency Curricular Modules, DHHS, Office of Minority Health,

**Role/Area of Expertise:** Evaluation and Measurement Expert; Diversity and Health Care Access Research

**Dates:** 2/2000-9/2004

**Summary of Advisory work:** This was a peer reviewed appointment. As an **Expert in Health Disparities and Cultural Competence Research and Practice**, to serve on a panel of experts to provide guidance throughout the project. Based on the three main areas of the CLAS Standards experts in the field were asked to work with the American Institutes for Research (Carlos Rodriguez, PI) to provide input and feedback on Culturally Competent Care, Language Access Services, and Organizational Supports modules for use by Primary Care and Family Medicine Practitioners. The advisor process involves intermittent manuscript (hard copies and electronic) and module review, face-to-face meetings, leadership in a series of Consensus-Building Meetings and the development of the content of the *Cultural Competency Curriculum Modules* for physicians.

**Name:** Minority Health Advisory Council, Alabama Department of Public Health, State of Alabama

**Role/Area of Expertise:** Evaluation Advisor, Professional Development and Teaching; Epidemiological Data systems linked to the community; Program Evaluation

**Dates:** 11/99 – present

**Summary of Advisory work:** As the **Community-based Evaluation Expert** Selected to serve on committee which is advisory to the Minority Health Director; led the effort to develop the RFA (Innovative Models/Programs Address Health Disparities of Racial and Ethnic Minority Populations in Alabama) for data system creation within community-based programs; Researched and provided guidance on assessment issues specific to health disparities in Alabama; serve as the Research Scientist on the Committee

**Name:** Community Development Committee, Alabama Southern Rural Access Program - Robert Wood Johnson Funded Program of the Partnership between West Alabama Health and the Alabama Department of Public Health

**Role/Area of Expertise:** Evaluation Advisor, Community-based Practice; Community-based Evaluation Methodology

**Dates:** 8/98 – 8/2004

**Summary of Advisory work:** Selected by the executive Committee of the Alabama Southern Rural Access Program as an **Community-based Evaluation Expert** to provide as-needed expertise and advice to the overall program and their grantees on program development, Professional training and evaluation of their efforts.

**Name:** Alabama State Children's Rehabilitation Services (CRS)- Program Evaluation Consultation and Technical Assistance for the projects: a) Alabama Interactive Community-Based model for Children with Traumatic Brain Injury (TBI); and b) Adolescent with Special health Care Needs Transition Services project

**Role/Area of Expertise:** Evaluation, Content and Practice Expert

**Dates:** 4/98-present

**Summary of Advisory work:** As an **Children and Adolescent with Special Health (CSHCN) Care Needs Expert** and previous work with the development of the Healthy People 2010 CSHCN policy and guidelines, particularly transition to adult care, provided guidance on development of goals and objectives specific to Alabama.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Name:** Medical and Research Advisory Committee (MARAC), Sickle Cell Disease Association of America (SCDAA)

**Role/Area of Expertise:** Senior Practice Advisor, Program and Policy Development, Social Research, Clinical Care

**Dates:** 8/93 - present

**Summary of Advisory work:** This was a peer reviewed appointment. As the **Public Health Practice Expert** and a **Clinical Practice Expert** to work with a panel of medical experts to develop materials and advise SCDAA on matter of research and public education. The MARAC was designed to served as the science and research advisory committee to the SCDAA which is the national organization for over 70 community-based programs serving persons with sickle cell disease.

**Name:** Committee on Educating Public Health Professionals for the 21<sup>st</sup> Century (**Institute of Medicine/ National Research Council**)

**Role/Area of Expertise:** Content and Practice Expert, Public Health Leadership, Community-based Public Health Practice and Research/Evaluation

**Dates:** 8/2002-11/2002

**Summary of Advisory work:** This was a peer reviewed appointment. As a **Public Health Practice Expert** was asked to serve on a panel of expert external reviewer, in the review of the Institute's draft report by the Committee on Educating Public Health Professionals for the 21st Century. This study is a companion study to the Committee on Assuring the Health of the Public in the 21<sup>st</sup> Century. The objective of the study is to assess the past and current state of education and training (theory) for public health professionals and contrast it to future practice needs envisioned by the Committee on Assuring the Health of the Public in the 21<sup>st</sup> Century. The committee's findings will be used to develop a framework for how, over the next five to ten years, education, training, and research in schools of public health can be strengthened to meet the needs of future public health professionals to improve population-level health.

**Name:** Race, Ethnicity and Health: A Reader, Johns Hopkins University Press, Thomas A. Laviest, PhD. (editor), Development and editorial committee

**Role/Area of Expertise:** Content Expert, Multi-Cultural Health Care Research and Practice; Graduate-level Teaching

**Dates:** 2/2001 – 5/2002

**Summary of Advisory work:** As an **Expert in Health Disparities and Cultural Competence Research and Practice**, by selection of the editor (after a review of the qualifications), served as an editor and provided review of the proposed literature in regards to its level of scholarship, timeliness, quality, relevancy and applicability to graduate-level education.

**Name:** Technical Expert Panel, Project on Measuring Cultural Competence in Health Care Delivery Settings, Office of Minority Health, HRSA

**Role/Area of Expertise:** Evaluation and Measurement Expert; Diversity and Health Care Research

**Dates:** 2/2001 – 9/2002

**Summary of Advisory work:** This was a peer reviewed appointment As an **Expert in Health Disparities and Cultural Competence Research and Practice** was asked to serve on a panel of experts to provide guidance and input into a set of methodologies to identify, define and measure indicators of culturally competent service delivery and systems of care.

**Name:** Maternal and Child Health Bureau, Division of Services for Children with Special Needs - Healthy People 2010 Transition Workgroup

**Role/Area of Expertise:** Content and Public Health Practice Expert, Research and Evaluation on Adolescents with Special Health care needs

**Dates:** 9/99 – 12/2000

**Summary of Advisory work:** This was a peer reviewed appointment. As a **recognized Adolescent with Special Health (ASHCN) Care Needs Expert** participated in the research and development of the guidelines for the Healthy People 2010 CSHCN goals and objectives with a specific focus on goals 6 – Transition to adult care. The outcome of this work is part of larger document published (hard copy and online) by the MCHB/HRSA/DHHS Healthy People 2010 Guidelines and policy.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Name:** Public Health Social Work Standards Committee, Association of State and Territorial Public Social Workers.

**Role/Area of Expertise:** Content Expert, Public Health Social Work Academics and Practice

**Dates:** 8/99 – 9/2001

**Summary of Advisory work:** As a **Public Health Social Work Academic and Practice Expert** and as part of the Association of State and Territorial Public Health Social Workers (ASTPHSW) and based on previous work in North Carolina, assisted with the facilitation participatory process of researching, writing, getting feedback and finalizing Public Health Social Work Standards for the United States.

**Name:** Bureau of Primary Care, Health Resources and Services Administration (HRSA) - Healthy Schools, Health Communities (HSHC) Project Evaluation – Panel on Logistics and Strategy

**Role/Area of Expertise:** Evaluation and Practice Expert, Adolescent Program Development and Evaluation

**Dates:** 10/96 - 1/98

**Summary of Advisory work:** **This was a peer reviewed appointment.** As a **Community-based Evaluation Expert** and **Academic Public Health Practice Expert** task was to review current goals, objectives and progress of the Healthy Schools, Health Communities (HSHC) Project Evaluation. Advise and make recommendation to HRSA and the project staff on strategies and methodology for improved data gathering, school negotiation, data collection and assessment.

**Name:** Planning and Development/Standards and Practice State of North Carolina, Department of Health and Natural Resources, Committee on the Future of Public Health Social Work

**Role/Area of Expertise:** Content Expert, Public Health Social Work Practice

**Dates:** 10/92 - 10/93

**Summary of Advisory work:** As the **Public Health Social Work Academic and Practice Expert**, function as part of the State of North Carolina, Department of Environment, Health, and Natural Resources, Co-Led the participatory process of researching, writing, getting feedback and finalizing Public Health Social Work Standards for North Carolina.

**Name:** Behavioral and Social Science Research/Writing Committee, Cooperative Study of Sickle Cell Disease, National Sickle Cell Disease Program, Division of Blood Diseases and Resources, National Heart, Lung and Blood Institute, National Institutes of Health

**Role/Area of Expertise:** Content Expert, Adolescent with Chronic Condition; Clinical Practice within sickle cell disease

**Dates:** 9/88-9/96

**Summary of Advisory work:** **This was a peer reviewed appointment.** As the **Adolescent with Special Health (ASHCN) Care Needs Expert**, participated in the review and writing of two technical reports and a peer-review publication on children and adolescents with sickle cell disease using data from the Cooperative study.

**Name:** Scientific Advisor, Governor's Council on Sickle Cell Syndrome and Related Hemoglobinopathies, State of North Carolina

**Role/Area of Expertise:** Content Expert, Clinical Practice; Psychological and Social Research; Community-based Evaluation; Professional Training

**Dates:** 5/94-10/96

**Summary of Advisory work:** As the **Public Health Social Work Academic and Practice Expert** and a **Clinical Practice Expert**, advised and worked with council to revise existing guidelines for participation in research, for training of state-level and community staffs and developed template for development, implementation and evaluation of a state-level data system to be used by state and community programs.

**B3. Public Health Practice and Technical Assistance Activities**

Tell me ....I Forget  
Show me....I remember  
Involve me....I understand  
*Chinese Proverb*

**Title:** Parent Project Muscular Dystrophy – Duchene Muscular Dystrophy Campaign

**Funding Agency:** CDC

**Consulting/Technical Assistance Period:** start 12/2005 and intermittent thereafter

**Role on Project:** Technical Expert – Community Engagement, Evaluation: Measurement and Assessment of Engagement and Partnership Campaign

**Project Description:** Provide as needed advice and expertise to a project designed to educate families and providers and to engage these groups in a campaign to assure access and utilization of appropriate medical services for children with Duchene Muscular Dystrophy. Pat Furlong and Sarah Durham, PIs (New York). **Special expertise provided** in the areas of community engagement, program development, program evaluation involving qualitative and quantitative measurement, report development and information problem-solving.

**Title:** Ethnic Differences in Pain Responses

**Funding Agency:** NIH/NINDS

**Consulting/Technical Assistance Period:** intermittent

**Role on Project:** Technical Expert – Measurement and Assessment of Ethnicity and Culture

**Project Description:** Provide as needed advice and expertise to a project designed to investigate the ethnic differences in responses to experimentally-induced pain, and to explore the biological, psychological and sociocultural factors contributing to these differences. Roger Filligan, PhD., University of Florida, PI. **Special expertise provided** in the areas of community Conceptual Development, Culturally Competent Qualitative and Quantitative measurement, primary and secondary data collection methods and analyses, review and summary write-up of the recent cultural competency literature, report development and information problem-solving.

**Title:** Communities in Charge: Financing and Delivering Health Care to the Uninsured

**Funding Agency:** Robert Wood Johnson Foundation

**Consulting/Technical Assistance Period:** intermittent

**Role on Project:** Technical Expert – Practice-based Measurement and Assessment

**Project Description:** Provide as needed advice and expertise to Coordinated Health System of Jefferson County (Alabama) in the development, implementation and formative evaluation of this first time health-based initiative for poor and uninsured persons. The purpose of the project is to “mold the current fragmented systems for the poor and uninsured into a seamless continuum of care that promotes primary and preventive care, chronic disease management, and appropriate specialty and inpatient services.” The process evaluation work is a modification of the collaborative/ participatory approach that is based on the methods of the Integrated Model of community-based Evaluation (IMCBE) originated by the evaluator. The modification with include a cost trend analyses (primary and specialty care) component, a longitudinal analyses of eligible enrolled and un-enrolled clients, qualitative analyses of the collaborative process between partners (current and new) and the development of a trend analyses the management of selected chronic conditions. **Special expertise provided** in the areas of community outreach, planning and negotiation, Cost Analyses, Conceptual Development, Culturally Competent Qualitative and Quantitative measurement, tool development, collaborative/participatory evaluation, primary and secondary data collection methods and analyses, review and summary write-up of the recent evaluation literature and implementation, report development and information problem-solving.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title/Agency/Program:** Sickle Cell Disease Association of the Piedmont's Home Health project

**Consulting/Technical Assistance Period:** 1/94-present

**Role:** Evaluation Consultation and Technical Assistance

**Description of Activities:** This is a longitudinal study of the health services experiences of a cohorts of adults and children with sickle cell disease in five counties in the Piedmont of North Carolina. Duties include: 1) assisting with the development of the design of the study; and 2) assisting with the ongoing data analysis and report writing for funders. **Special expertise provided** in the areas of community-based evaluation methods (quantitative and qualitative methods), community outreach and development, social research, data collection and assessment methods specific to persons with chronic conditions, health program evaluation, grant development, report development and information dissemination.

**Title:** *Salud Para Todos* (Health for All) – Evaluation Component

**Funding Agency:** Substance Abuse and Mental Health Services Administration, National Institutes, DHHS

**Consulting/Technical Assistance Period:** 10/20-01-9/2002

**Role on Project:** Technical Expert – Data analyst and Protocol preparation

**Funding Period:** 10/20-01-9/2002

**Project Description:** Assist project with the analyses and integration of project data. The project is a collaborative effort between the Greater Birmingham Latino Community Organization, Centro de Salud, and the Central Alabama Alliance for Latino Health (wrote the background and project methodology). The project is a first time health-based needs, assets and capacity assessment of the Latino community and providers in the Greater Birmingham area. The process evaluation, analytical work and protocol development is a collaborative/ participatory approach that is based on the methods of the Integrated Model of community-based Evaluation (IMCBE) originated by the evaluator that includes a "Building Capacity to Build Capacity" component and the development of a GeoSocioGram of general health, human HIV and substance abuse preventive services. **Special expertise provided** in the areas of community outreach, planning and negotiation, Conceptual Development, Culturally Competent Qualitative and Quantitative measurement, tool development, collaborative/ participatory evaluation, primary and secondary data collection methods and analyses, review and summary write-up of the recent evaluation literature and implementation, report development and information problem-solving.

**Title/Agency/Program:** SSDI/CISS/Healthy Child Care Alabama Project, ADPH Bureau of Family Health Services

**Consulting/Technical Assistance Period:** 3/99-8/2002

**Funding Agency:** HRSA, Bureau of Maternal and Child Health

**Role:** Evaluation Consultation and Technical Assistance:

**Description of Activities:** a) Provide didactic workshops and individual consultations for Nurse Consultants and Community Providers on collaboration and evaluation of child service programs in community settings; b) Assist in development of the evaluation components and strategy for this CISS grant; c) conduct on-going community-based organization, planning and evaluation activities. **Special expertise provided** in the areas of community-based evaluation methods (quantitative and qualitative methods), culturally competent assessment methods, health program evaluation, lay and professional training, grant development, report development and information dissemination.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title:** HRSA Project: Developing Indicators And Measurement Of Cultural Competence For Direct Service Delivery

**Funding Agency:** Health Services Resources Administration (HRSA) Office of Minority Health

**Consulting/Technical Assistance Period:** 11/2000-9/2001

**Role on Project:** Technical Expert – Practice-based Measurement and Assessment

**Project Description:** Assisted the Lewin Group (HRSA contractor) to: 1) develop a conceptual model of cultural competency for primary care settings; 2) identify indicators and measures that can be used to assess cultural competency; 3) test the practical application of these measures in best-practice settings; and 4) assist with final report writing and program /legislative policy recommendations. **Special expertise provided** in the areas of Conceptual Development, Culturally Competent Qualitative and Quantitative (psychometric) Measurement and Indicators item and tool development, data collection and analyses methods, review and summary write-up of the recent research literature, legislation and best practices, development of practice-based policies and implementation, report development and information problem-solving.

**Title:** NCDH Project: Assessing the Health Related Needs of Youth with Chronic Health Conditions and Disabilities

**Funding Agency:** Office of Disability and Health, State of North Carolina Department of Health and Human Services

**Consulting/Technical Assistance Period:** 3/2000-10/2000

**Role on Project:** Technical Consultant – Qualitative Data and Assessment

**Project Description:** Wrote the background literature paper for the final project report; needs assessment data collection tool; analyzed and synthesized the findings from the state-wide adolescent focus groups; assist with final report writing and program /legislative policy recommendations. **Special expertise provided** in the areas of Qualitative data collection methods and assessment (focus groups), review and summary write-up of the recent research literature, legislation and best practices, development of practice-based policies, report development and information problem-solving.

**Title:** Halifax and Warren Counties (North Carolina) Smart Start Initiatives – Needs Assessment

**Funding Agency:** State of North Carolina Department of Human Services

**Consulting/Technical Assistance Period:** 1/2000-1/2001

**Role on Project:** Technical Consultant – Data and Assessment

**Project Description:** Assisted with writing the needs assessment data collection tool; assisted with strategic planning for the local community data collection; performed the data analysis; assist with final report writing. **Special expertise provided** in the areas of community data collection methods, culturally competent assessment methods, social research (quantitative and qualitative methods), data collection and assessment methods specific to poor and minority populations, and data gathering, report development and information problem-solving.

**Title/Agency/Program:** Robert Wood Johnson Foundation – Evaluation Unit

**Consulting/Technical Assistance Period:** 1/2000-3/2001

**Funding Agency:** Robert Wood Johnson Foundation

**Role:** Evaluation Consultation

**Description of Activities:** Assisting the Foundation in reviewing and mapping out appropriate evaluation strategies for applicants for funded activities. **Special expertise provided** in the areas of community-based evaluation methods, culturally competent assessment methods, social research (quantitative and qualitative methods), strategic planning, data collection and assessment methods specific to persons with chronic conditions, and data gathering, report development and information problem-solving.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title/Agency/Program:** Center for Policy and Program Affairs – Family Voices Organization Evaluation

**Consulting/Technical Assistance Period:** 1/2000-12/2000

**Funding Agency:** Institute for Child Health Policy, University of South Florida

**Role:** Evaluation Consultation

**Description of Activities:** Assisting the Institute in planning and mapping out appropriate evaluation strategies for the Family Voices Organization's funded and unfunded activities. **Special expertise provided** in the areas of community-based evaluation methods, culturally competent assessment methods, social research (quantitative and qualitative methods), data collection and assessment methods specific to persons with chronic conditions, and data gathering, report development and information problem-solving.

**Title/Agency/Program:** National Decisions for Health Network Evaluation Workgroup

**Consulting/Technical Assistance Period:** 1/2000-6/2001

**Funding Agency:** Alabama Cooperative Extension Community Health, Auburn through the U.S. Department of Agriculture

**Role:** Evaluation Consultation

**Description of Activities:** Assisting the National workgroup with the development of a manual and training materials for community-based evaluation; develop and conduct two interactive workshops on community-based health program evaluation; provide ongoing problem-solving and strategic planning in the areas of community education outreach and assessment. **Special expertise provided** in the areas of community-based evaluation methods (quantitative and qualitative methods), culturally competent assessment methods, health program evaluation, inservice training, data gathering, problem-solving, report development and information dissemination.

**Title/Agency/Program:** Partners for Healthy Community

**Consulting/Technical Assistance Period:** 2/2000-3/2001

**Funding Agency:** Jefferson County Department of Public Health, Alabama

**Role:** Evaluation Consultation

**Description of Activities:** Assisting the health department to plan and map out appropriate evaluation strategies for its community education outreach activities; providing introductory and on-going in-service training in the areas of outreach, program monitoring and assessment and the fundamental principles and methods of community evaluation. **Special expertise provided** in the areas of community-based evaluation methods, community outreach and development, culturally competent assessment methods, health program evaluation, lay and professional training, grant development, report development and information dissemination.

**Title/Agency/Program:** Adolescent Transition Program: Networking New England

**Consulting/Technical Assistance Period:** 8/9-1/2000

**Funding Agency:** Brigham and Women's Hospital, Boston

**Role:** Evaluation Consultation and Technical Assistance

**Description of Activities:** Assisting members of the transition research team with efforts of problem solving, strategic planning, key of key findings and dissemination of current and emerging information on transition to adult care for adolescents with sickle cell disease. **Special expertise provided** in the areas of health program evaluation (quantitative and qualitative methods), professional education and training, report development and information dissemination.

**Title/Agency/Program:** Women's Fund of Greater Birmingham through a grant to the UAB Center for Urban Affairs

**Consulting/Technical Assistance Period:** 3/98-12/99

**Funding Agency:** Women's Fund of Greater Birmingham

**Role:** Evaluation Consultation and Technical Assistance:

**Description of Activities:** Assist the development of the research protocol and some qualitative and quantitative data review and analysis for a project aimed at assessing the capacity of this philanthropic agency to a) research and understand the existing need and potential for the successful development of women entrepreneurs from low income areas; and b) to provide resources necessary for initiating and nurturing this development. **Special expertise provided** in the areas of community-based evaluation methods, report development and information dissemination.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title/Agency/Program:** Hale Empowerment and Revitalization Organization (H.E.R.O.) - Hale County Alabama

**Consulting/Technical Assistance Period:** 3/97 - 4/98

**Funding Agency:** Alabama Department of Public Health

**Role:** Community-based Program Evaluation Consultation and Development Assistance

**Description of Activities:** 1) Assisted in development of the evaluation components and strategy for the county Rural Outreach and Family resource Center (FRC) grants application and re-application; 2) on-going community-based organization, planning and evaluation activities. **Special expertise provided** in the areas of community-based evaluation methods and information dissemination.

**Title/Agency/Program:** Birmingham Healthy Start

**Consulting/Technical Assistance Period:** 12/96-9/97 and 4/98 - 5/98

**Funding Agency:** Jefferson County Department of Public Health from the Maternal and Child Health Bureau, Health Services Administration

**Role:** Community-based Program Evaluation Consultation and Technical Assistance

**Description of Activities:** Provide consultation to the local evaluation team in the areas of community-based outreach, strategic planning, assessment procedures and overall data analysis and dissemination. **Special expertise provided** in the areas of community-based evaluation methods (quantitative and qualitative methods), community outreach and development, lay and professional education and training, grant development, report development and information dissemination.

**Title/Agency/Program:** Alabama Department of Public Health, Bureau of Family Health Services - Community-based Family Planning Program

**Consulting/Technical Assistance Period:** 3/97 - 5/97

**Funding Agency:** Alabama Department of Public Health

**Role:** Technical Evaluation Consultant

**Description of Activities:** Review and refinement of, and technical assistance with, development of the evaluation protocol for the community outreach mini-grants. **Special expertise provided** in the areas of community-based evaluation methods, lay and professional education and training, report development and information dissemination.

**Title/Agency/Program:** District 8, Florida Department of Health and Rehabilitative Services, Division of Community Health

**Consulting/Technical Assistance Period:** 7/95-9/95

**Funding Agency:** Health Services Research Agency, Title X Program

**Role:** Technical Consultant

**Description of Activities:** Technical assistance involving review and decision making for district wide family planning data development project and protocol for evaluation of this data project. **Special expertise provided** in the areas of community outreach and development, professional education and training.

**Title/Agency/Program:** Alabama, Statewide Family Planning Program, Bureau of Family Health Services

**Consulting/Technical Assistance Period:** 6/95-8/95

**Funding Agency:** Alabama Department of Public Health

**Role:** Technical Evaluation Consultant

**Description of Activities:** Development, implementation and analysis of: 1)state level family planning education materials to be used by the contract agencies and personnel focusing on the targeted population of persons of childbearing age especially adolescents; and 2) technical assistance protocols for community outreach and education. **Special expertise provided** in the areas of community-based evaluation methods, report development and information dissemination.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title/Agency/Program:** North Carolina, Women's Preventive Health Branch, Division of Maternal and Child Health, DEHNR

**Consulting/Technical Assistance Period:** 5/95-8/95

**Funding Agency:** North Carolina Department of Public Health

**Role:** Technical Evaluation Consultant

**Description of Activities:** Development, implementation and analysis of: 1) technical assistance protocols for community outreach and education; and 2) needs assessment of primary and secondary accountability data for the purposes of meeting federal guidelines, program review and planning. **Special expertise provided** in the areas of community-based evaluation methods, community outreach and development, lay and professional education and training.

**Title/Agency/Program:** North Carolina Family Ties - Family and Community Based Needs and Resource Project. Department of Human Resources, Division of Family Development.

**Consulting/Technical Assistance Period:** 11/94-8/95

**Funding Agency:** North Carolina Department of Public Health

**Role:** Evaluation Consultation and Technical Assistance

**Description of Activities:** Technical assistance involving review, planning and decision making for multi-county data development project and protocol for evaluation and analysis of collected data. **Special expertise provided** in the areas of community-based evaluation methods.

**Title/Agency/Program:** : Maternal and Child Health Training Project, University of South Carolina (site). Requester: Maternal and Child Health Bureau, U. S. Department of Health and Human Services.

**Consulting/Technical Assistance Period:** 9/94-8/95

**Funding Agency:** Maternal and Child Health Bureau

**Role:** Program Development Technical Consultant

**Description of Activities:** Review of current program, assess potential for future development, assist with the development of two courses and serve as consultant to the program's oversight committee. **Special expertise provided** in the areas of professional education and training in the area of public health social work and curriculum development.

**Title/Agency/Program:** Cumberland County Partnership for Children

**Consulting/Technical Assistance Period:** 9/94-12/94

**Funding Agency:** State of North Carolina, Department of Human Services

**Role:** Technical Consultant

**Description of Activities:** Development of a community health care outreach proposal. **Special expertise provided** in the areas of grant development and information dissemination.

**Title/Agency/Program:** B.R.I.D.G.E.S. Community Resource Center Evaluation Project

**Consulting/Technical Assistance Period:** 7/94-6/96

**Funding Agency:** Cumberland County Partnership for Children

**Role:** Evaluation Consultant Consultation and Development Assistance

**Description of Activities:** Development, implementation and analysis of program evaluation procedures. **Special expertise provided** in the areas of community-based evaluation methods (quantitative and qualitative methods), community outreach and development.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title/Agency/Program:** South Carolina Multidisciplinary Community-Based Family Planning Project.  
State of South Carolina, Department of Health and Environmental Control, Bureau of Maternal and Child Health, Office of Maternal and Family Health.

**Consulting/Technical Assistance Period:** 3/94-11/97

**Funding Agency:** State of South Carolina Department of Health Environmental Control

**Role:** Technical Evaluation Consultation and Technical Assistance

**Description of Activities:** Development, implementation and analysis of: 1) provision of initial and ongoing training of state and region level staff on methods of working with local communities on the establishment and maintenance of family planning intervention program; 2) state level family planning education materials to be used by the contract agencies and personnel focusing on the targeted population of persons of childbearing age especially adolescents; and 3) technical assistance protocols for community outreach and education. **Special expertise provided** in the areas of state level health program evaluation, community outreach, culturally competent assessment methods, community education and development, lay and professional education and training, and social research, data collection and assessment methods specific to populations of at-risk youth.

**Title/Agency/Program:** State of North Carolina, Sickle Cell Syndrome Program. Projects: Single Gene Educator/Counselor Training and Certification Program and Program Services Monitoring Program.

**Consulting/Technical Assistance Period:** 10/92-9/94

**Funding Agency:** North Carolina Department of Public Health

**Role:** Planning Consultant, Evaluator and Data Analyst

**Description of Activities:** Provided technical assistance with the planning and evaluation of this single gene counselor education and training program. **Special expertise provided** in the areas of lay and professional education and training, and testing methods specific to genetic professionals.

**Title/Agency/Program:** State of South Carolina, Department of Health and Environmental Control (DHEC). Projects: Continuing Education and Training of Public Health Social Workers Statewide Assessment of the Professional Roles and Needs of Public Health Social Workers and Trouble Shooting for State Consultants.

**Consulting/Technical Assistance Period:** 12/93-8/94

**Funding Agency:** State of South Carolina, Department of Health and Environmental Control

**Role:** Program Planning and Development Technical Consultant

**Description of Activities:** Consulting/training, program development, planning and evaluation, and problem-solving for several DHEC projects. **Special expertise provided** in the areas of lay and professional education and training, and testing methods specific to diverse public health professionals at the state and regional levels, and strategic planning for local program development, implementation and assessment.

**Title/Agency/Program:** Triad Sickle Cell Anemia Foundation, Inc. Outreach and Training Program for Adolescents and Young Adults

**Consulting/Technical Assistance Period:** 3/92-4/95

**Funding Agency:** Various Foundations

**Role:** Planning and Evaluation Consultant

**Description of Activities:** Provided technical assistance with the agency's needs assessment and program development for the youth outreach and training program.. **Special expertise provided** in the areas of lay and professional education and training, and testing methods specific to genetic professionals.

**Title/Agency/Program:** Children's Hospital Oakland, Child Protection Treatment Services Project (CPTSP).

**Consulting/Technical Assistance Period:** 5/91-12/92

**Funding Agency:** County of Alameda, California

**Role:** Program Evaluation Consultation and Technical Assistance

**Description of Activities:** Provided technical assistance with the development of the evaluation plan and its implementation for CPTSP project. **Special expertise provided** in the areas of lay and professional education and training, and testing methods specific to pediatric medical social work professionals.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title/Agency/Program:** State of California, Newborn Screening Program, San Francisco Bay Area Region, Elliot Vichinsky, M.D., P.I., Grant #89-97232

**Consulting/Technical Assistance Period:** 9/89-6/91

**Funding Agency:** State of California Department of Health

**Role:** Social Work Consultant

**Description of Activities:** Provided consultation on the development and implementation of the social work component of State of California Newborn Screening Program. **Special expertise provided** in the areas of lay and professional education and training, and testing methods specific to genetic professionals.

**Title/Agency/Program:** Foster Placement of Medically Fragile Children Project (MFCP). Bette Isabelle, LCSW, P.I. Children's Hospital Oakland, California. Project funded in part by the San Francisco Foundation and the Northern California Grantmakers AIDS Task Force

**Consulting/Technical Assistance Period:** 9/89-6/91

**Funding Agency:** Children's Hospital Oakland

**Role:** Evaluation Analyst (TA)

**Description of Activities:** Provide technical assistance with the development and formative evaluation of the MFCP project. **Special expertise provided** in the areas of state level health program evaluation, and social research, data collection and assessment methods specific to populations of vulnerable youth.

**Title/Agency/Program:** Population Communication Services, Baltimore, Maryland, November 1985 - September 1987.

**Consulting/Technical Assistance Period:** 8/87-10/87

**Funding Agency:** USAID

**Role:** Data Programmer/Analyst NTA/Enugu Project

**Description of Activities:** Assisted program investigators with the programming and analyses of project data.

### B4. Expertise And Areas Of Interest

- Community-based and Community-Oriented program evaluation and research
- Culturally Competent Research and Evaluation
- Health practice, research, program evaluation, and policy issues of women, teens and children with chronic conditions (and their families), special emphasis on Sickle Cell Disease.
- Issues of access to, and utilization of, health care for the poor, people of color and persons living in rural areas.
- Social and Community Aspects of HIV/AIDS Research (Domestic/International).
- Public Health Social Work
- Public Health Practice
- International and Domestic Professional/Provider Education – **Special Areas:** Qualitative Research methods and Techniques, Participatory research and Evaluation, Research and Service Grant Writing and Implementation and Data development, Analysis and Utilization

**Telfair, J.**, Sickle Cell Disease National Registry Data Project. Technical proposal prepared for the Sickle Cell Association of America (SCDAA) a national, not-for-profit organization headquartered in Culver City, California, September 1996.

### 1995

**Telfair, J.**, B.R.I.D.G.E.S. Early Childhood Family Service Center: Family Resource Program Evaluation Report, 1994-1995. Technical report prepared for the Cumberland County B.R.I.D.G.E.S. Early Childhood Service Center, North Carolina, June 1995.

## 3B. Research Presentations and Published Abstracts

### B1. Invited Presentations

- 4/2006 **Telfair, J.** & Clay, O.J., "Relationship between adjustment and self-efficacy in adolescents with sickle cell disease: Assessment of a disease-specific instrument", **invited research paper**, 29<sup>th</sup> Annual Sickle Cell Disease Meeting, NIH, Memphis, Tennessee, April 10, 2006. (**Abstract:** Conference Proceedings).
- 4/2006 Ngo-Metzger, Q. and **Telfair, J.**, "Cultural Competency and Quality of Care: Obtaining the Patient's Perspective", invited research paper, Cultural Competency: Understanding the Present and Setting Future Directions, The Commonwealth Fund, New York, New York, April 7, 2006.
- 4/2005 **Telfair, J.** "Multi-site Study of Parental/Caretaker Perspectives on Transition of Adolescents with SCD to Adult Care", **invited research paper**, 28<sup>th</sup> Annual Sickle Cell Disease Meeting, NIH, Cincinnati, Ohio, April 13, 2005. (**Abstract:** Conference Proceedings).
- 4/2005 **Telfair, J.** "SCDAA/MCHB SCD Newborn screening follow-up program national coordinating and evaluation center: Evaluation effort for the first three years", **invited paper**, 28<sup>th</sup> Annual Sickle Cell Disease Meeting, NIH, Cincinnati, Ohio, April 12, 2005. (**Abstract:** Conference Proceedings).
- 4/2005 **Telfair, J.** "Scope of the current problem: Gaps in prevention and care", **invited background paper**, Workgroup on Sickle Cell Disease treatment Act, HRSA/MCHB, Rockville, MD, April 4, 2005
- 6/2004 **Telfair, J.** "US Experience of Sickle Cell Disease in Adolescence", **invited key note research paper**, Sickle Cell Disease & Thalassemia Case Study Conference, University College of London, UK, June 18, 2004.
- 4/2004 **Telfair, J.** "Transition To Adult Care For Adolescents With Sickle Cell Disease: Results Of A National Survey" **research paper**, 27th Annual meeting of the National Sickle Cell Program, Los Angeles, CA, April 19, 2004. (**Abstract:** Conference Proceedings).

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

- 11/2003 **Telfair, J.** “Sickle Cell Disease: Transitioning From Pediatric to Adult Care Systems”, **research paper**, Akron General Medical Center, Dr. Herbert E. Croft Visiting Professorship, Akron, Ohio, November 5, 2003.
- 4/2003 **Telfair, J.**, “Social and community-based issues of working with persons with sickle cell disease and their families”, **research paper**, Institute for African American Health, Inc., Florida A & M University, Tallahassee, Florida, April 4, 2003.
- 6/2002 **Telfair, J.**, “US Experience of Sickle Cell Disease in Adolescence”, **invited research paper**, National Symposium on Sickle Cell Disease & Thalassemia, University College of London, UK, June 28, 2002.
- 6/2002 **Telfair, J.** “Transition of adolescents to adult care: select findings from the national sickle cell disease study”, **research paper**, Workshop on Adults with SCD: Meeting Unmet Needs, NIH, Bethesda, MD, June 13, 2002. (**Abstract:** Conference Proceedings).
- 6/2002 **Telfair, J.** “Economic and social barriers faced by persons with SCD”, **research paper**, Workshop on Adults with SCD: Meeting Unmet Needs, NIH, Bethesda, MD, June 13, 2002. (**Abstract:** Conference Proceedings).
- 4/2001 Hall, D., **Telfair, J.**, Gailliard, T., Brunson, C., & Jackson, S., “The Transition Experience”, **research paper**, 25th Annual meeting of the National Sickle Cell Program, New York, NY, April 16, 2001. (**Abstract:** Conference Proceedings).
- 01/2001 **Telfair, J.** “Basics of Evaluating Programs in Community Settings” **technical presentation**, presented at Tuesday Topic Lecture Series, UAB School of Public Health, Birmingham, Alabama January 30, 2001.
- 5/2000 **Telfair, J.** “Alabama Sickle Cell Disease (SCD) Client Registry Project: Current Findings”, **research paper**, 2000 Alabama Sickle Cell Disease Association of America Conference, Mobile, Alabama, June 9, 2000.
- 5/2000 **Telfair, J.** “Moving On?: Transition of Adolescents with Chronic Conditions to Adult Care and Life”, **research paper**, Grand Rounds Rhode Island Children’s Hospital/ Brown Medical School, May 3, 2000
- 5/2000 **Telfair, J.** “Transition of Adolescents with Sickle Cell Disease to Adult Care and Life”, **research paper**, Research Forum, Yale Medical School, May 3, 2000
- 4/2000 **Telfair, J.**, “Evaluation of Alabama’s Community-based Perinatal Initiatives: Linkages Between Public Health Practice and Academia”, **research in progress paper**, 2000 Alabama Public Health Association Conference, Auburn, Alabama, April 27, 2000.
- 10/99 **Telfair, J.** “Effective Transition Models: Local Perspectives of the National Transition Survey”, **research paper** presented at the 6<sup>th</sup> Annual Kermit B. Nash Sickle Cell Parent & Family Network Regional Educational Conference, University of Cincinnati, Cincinnati, Ohio, October 2, 1999.
- 9/99 **Telfair, J.** “Transition of Adolescents with Sickle Cell Disease to Adult Care and Life: Perceived Concerns and Potential Solutions”, **research paper** presented at the 2nd Annual Statewide Sickle Cell Disease Conference, Medical University of South Carolina, Charleston, SC, September 25, 1999.
- 6/99 **Telfair, J.** “Community-based Projects: Key Findings (1997-98, 1998-99) from the Alabama Community-based Perinatal Initiatives”, **research paper**, presented at Alabama Perinatal Care Conference, Montgomery, Alabama, June 4, 1999.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

- 6/99 **Telfair, J.** "Community-based Projects: Purpose and Expected Outcomes of Alabama Community-based Perinatal Initiatives", **technical presentation**, presented at Alabama Perinatal Care Conference, Montgomery, Alabama, June 3, 1999.
- 3/99 Telfair, J., Bicknell, R. C. A., and Hanson, E., "Child and family services core principles: Patterns of provider practices in Cumberland County, 1994-1998", **research paper** presented at State of North Carolina Smart Start Evaluation Conference, Chapel Hill, NC, March 16, 1999.
- 11/98 **Telfair, J.** "Social, Health Services and Community-based Research Perspectives of Genetic Blood Disease", background **research paper** presented to the Blood Disease and Resources Divisions, National Heart, Lung and Blood Institute, NIH, Bethesda, MD, November 30, 1998
- 10/98 **Telfair, J.**, "Learning from experience: Key Findings from the Multi-site Transition Pilot Study (Current data)", **research paper** presented at the 26<sup>th</sup> Annual Convention of the Sickle Cell Disease Association of America, Buffalo, NY, October 9, 1998
- 10/98 Lewis, S., **Telfair, J.**, Danzey, M., Ajayi, S. and Winston, B., "Charting the lives of persons with Sickle Cell Disease: An overview and discussion of the Alabama Sickle Cell Disease Social Epidemiological Registry project", **research panel presentation** at the 26<sup>th</sup> Annual Convention of the Sickle Cell Disease Association of America, Buffalo, NY, October 7, 1998
- 4/98 **Telfair, J.**, "Community Evaluation: Why do it? What is it? How can you make it work for you?", **research paper** presented at the 42nd Annual Meeting and Health Education Conference of the Alabama Public Health Association, April 7, 1998.
- 10/96 **Telfair, J.** and Norcott, K., "Understanding and Developing Outcome-Based Program Evaluation: Part I - The Basics", **research paper** presented at the 24th Annual Convention of the Sickle Cell Disease Association of America, October 3, 1996
- 10/95 Douglas, M., and **Telfair, J.** "Community-based Nursing for Persons with Sickle Cell Disease", **research paper** presented at the 23rd Annual Meeting National Sickle Cell Disease Association of America October 5, 1995.
- 3/95 **Telfair, J.** "A Pilot Study of Transition to Adult Care for Individuals with Sickle Cell Disease" invited **research paper** - University of North Carolina-School of Public Health Minority Health Research and Education Committee. Chapel Hill, North Carolina. February 24, 1995.
- 6/94 **Telfair, J.**, "Transfer as a component of transition of adolescents with sickle cell disease to adult care" **research paper** presented at the Bellamy Sickle Cell Update Seminar, Sponsor: Ohio Department of Health, Division of Maternal and Child Health. Dayton, Ohio. June 12, 1994.
- 12/93 **Telfair, J.**, "Provider Considerations for the Transfer of Adolescents with Sickle Cell Disease to Adult Care: A Qualitative-Quantitative Analysis" **research paper** presented to the Triangle Area Adolescent Health Services Research Group, University of North Carolina at Chapel Hill, Chapel Hill, North Carolina. December 8, 1993.
- 11/93 **Telfair, J.**, "The Transition of Adolescents with Chronic Conditions from pediatric to adult care: Provider Decisions and Perspectives". **research paper** presented at Grand Rounds of Children's Hospital Oakland, Oakland, California. November 11, 1993.

Division of Blood Disease and Resources, National Heart, Lung and Blood Institute, NIH,  
Bethesda, MD, November 30, 1998

- 1998 **Telfair, J.** “Identifying and Studying Children and Adolescents with Chronic Conditions” Invited **paper prepared and presented** for the Expert Policy Roundtable Expert Policy Roundtable of the 3<sup>rd</sup> Annual Conference Workforce Inclusion: From Barriers to Bridges, Social Security Administration – Office of Disability and Income Security Programs and the Department of Education – National Institute on Disability and Rehabilitation Research (NIDRR), Washington, DC., October 5, 1998
- 1998 **Telfair, J.**, State Issues surrounding monitoring/quality assurance and CHIP” invited **Background paper presenter** at the Children’s Health Insurance Programs and Title V Programs national audio conference convened and sponsored by the Association of Maternal and Child Health Programs, June 26, 1998
- 1998 **Telfair, J.** “Successful Transition to Employment for Minority Youth with Disabilities” Invited **Panel Discussant**. Convened and sponsored by the U.S. Social Security Administration, Maternal and Child Health Bureau and the Institute for Child Health Policy, Washington, DC., June 17, 1998.
- 1997 **Telfair, J.**, “Children Youth & families: Building on Cultural Strengths of Black & African American Communities” Invited **Panel Discussant**. Convened and sponsored by the Institute for Health & Disability(U. of Minnesota), and the Maternal and Child Health Bureau (DHHS), Chantilly, VA April 12, 1997
- 1994 **Telfair, J.** "Moving On: Transition from Pediatric to Adult Care (An International Conference)" Invited **Panel Discussant**. Wingspread Conference Center, Racine, Wisconsin. Primary Sponsors: National Center for Youth With Disabilities and the Center for Children with Chronic Illness and Disability of the University of Minnesota and the Adolescent Health Program of the University of Melbourne, Australia. September 9-11, 1994.

3C. Extramural Research and Evaluation Support/Funding Received

1. Current Funded Projects

**Title:** *Association of Maternal and Child Health Programs Leadership Project (Evaluation Sub-Contract)*

**Funding Agency:** Department of Health and Human Services/MCH (2 U01MC00001-06-00)

**Total Amount:** \$50,000/per year (actual)

**Percent Effort on Project:** 10% per year

**Funding Period:** 06/01/2006 – 05/31/2007

**Role on Project:** **Principal Evaluator** (PI – Peter Sybinski, PhD)

**Project Description:** The five goals of this cooperative agreement are to: 1) strengthen the capacity of state Title V programs to improve the health outcomes and eliminate health disparities for the nation's women, children, youth, children with special health care needs, and families across the life span; 2) strengthen the AMCHP organizational network for MCH systems; 3) promote a collaborative national agenda for MCH; 4) address existing and emerging MCH issues; and 5) strengthen MCH leadership at national, state and territorial levels. The goals of the assessment plan are: 1) Assure quality programs and products for its members; 2) Help achieve its new 5-year strategic plan; 3) Meet deliverable requirements under the new, 5-year cooperative agreement from MCHB; and 4) Improve the performance and administration of the organization. Based on a Participatory Research and Evaluation (PRE) approach, the assessment implementation methodology will involve the development of a cooperative working partnership between the AMCHP staff and advisors and the assessment team. Both performance monitoring and process evaluation methods will be used to assess key indicators and outcomes linked to both the project's goals and the assessment tasks.

**Title:** *Sowing the Seeds of Health (Sembrando las Semillas de la Salud)*

**Funding Agency:** Department of Health and Human Services/NCI (1R25CA106870-01A1)

**Total Amount:** \$750,000 per year/5 years (actual)

**Percent Effort on Project:** 10% per year

**Funding Period:** 06/01/2005 – 05/31/2010

**Role on Project:** **Co-Investigator and Evaluator** (PI – Isabel Scarinci, PhD)

**Project Description:** The Sowing the Seeds of Health is an educational program to promote cervical cancer screening and awareness regarding the importance of breast cancer early detection among Latina immigrants of reproductive age, and it is based on the following foundation: (a) extensive formative evaluation through which members of the target audience were involved in all steps of program development; (b) it can be delivered by lay individuals; (c) it is theory-based; (d) it is connected to affordable and accessible health care services; and (e) it uses Latina immigrants' interest in family planning as a catalyst to promote cervical screening and awareness regarding the importance of breast cancer early detection within this population, thereby making it unique. The overall goal of this proposal is to reduce the incidence of breast and cervical cancer in Latinas immigrants via community health advisors or "promotoras." We will first conduct a formative evaluation phase to adapt and refine a pilot-tested, theory-based, culturally relevant educational program to promote cervical screening and early detection of breast cancer among Latina immigrants of reproductive age which is "packaged" as a family planning program. We will then identify, recruit, and train 10 "promotoras" in the Birmingham area. These "promotoras" will implement the developed educational program among 200 Latina immigrants between the ages of 19 and 42. Immediate as well as annual outcomes of the proposed educational program will be carefully and extensively evaluated. Finally, based on a "hub and spoke" approach, we will disseminate the tested educational program to other counties within the state of Alabama. The rationale for this proposal is that further development and evaluation of such an educational program will increase cervical cancer screening rates and awareness regarding the importance of breast cancer early detection among Latina immigrants.

**Title:** Magic City Stroke Prevention Project (MCSPP)

**Funding Agency:** Department of Health and Human Services/NHLBI/Office of Minority Health

**Total Amount:** \$2,4000,000/4 years (actual)

**Percent Effort on Project:** 15% per year

**Funding Period:** 08/30/2004 – 8/31/2008

**Role on Project: Principal Investigator and Director**

**Project Description:** The grant will support a new initiative aimed at reducing the excessively high rates of stroke, stroke disabilities and stroke deaths that disproportionately occur in the southeastern region of the United States. The SBEI represents a collaborative effort among all HHS agencies and is part of the Closing the Health Gap Initiative, which seeks to reduce racial and ethnic disparities in healthcare. The SBEI consists of four core interventions including development and implementation of a community-wide awareness and education campaign, a communications network that informs individuals of the availability of free blood pressure screening activities, a component for health professionals that emphasizes improvement of blood pressure control rates for persons with hypertension, and a component for health systems and health plans that emphasizes improvement of blood pressure control rates for persons with hypertension. Through the use of a methodology that integrates community partnerships, sound social theory, community practice and community-based evaluation, the Magic City Stroke Prevention Group will work with public and private organizations to develop and implement programs aimed at achieving the outcomes of preventing and controlling hypertension and lowering the stroke rate in Central Alabama. Specific tasks are to provide the leadership and oversee all project activities, work closely with DHHS, work closely with project collaborating partners, lead the data and evaluation efforts, lead the project's Steering Committee, and work with project staff and partners on writing and publications.

**Title:** Center for Health Promotion

**Funding Agency:** Centers for Disease Control and Prevention

**Total Amount:** \$4,357,475/5 years (actual)

**Percent Effort on Project:** 33% year1; 35% years 2-3; 30% year 4; 40% year 5 (original budget)

**Funding Period:** 09/30/2004 – 9/30/2009

**Role on Project: Co-Investigator/Associate Director of Research and Evaluation (Center) and Co-PI Core Research Project (Max Michael, MD, PI)**

**Project Description:** The UAB Center for Health Promotion (Center) is both a Centers for Disease Control and Prevention (CDC) Prevention Research Center (PRC) and a designated UAB University Wide Interdisciplinary Research Center. The Center's long-standing mission is "to bridge the gap between public health science and practice in risk reduction across the life span among African Americans and other under-served communities and to determine the benefits of sustained efforts to build community capacity and to reduce risk factors within under-served communities." This mission guides all of the Center's activities and has led to the Center's focus on community-based prevention and research activities, efforts to reduce health disparities in the Black Belt Region of Alabama and a commitment to culturally competence evaluation. Specific tasks in the Center is to oversee all research activities, including the Special Interest Research Projects (SIPs), Other Collaborative projects, serving as Co-PI and Community and qualitative data research specialist on the Center's Flying Sparks core research project, to serve on the Center's Executive Committee, Co-Direct the Center' Evaluation Unit and lead the Center's Writing and Publications committee

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title:** Behavioral Sciences Core, Center for AIDS research (CFAR) University of Alabama at Birmingham

**Funding Agency:** National Center for AIDS Research /NIH

**Total Amount:** \$55,918/5 years (actual)

**Percent Effort on Project:** 10%/year

**Funding Period:** 3/1/2003 – 4/30/2007

**Role on Project:** Co-Investigator Behavioral Sciences Core/ (PI, Michael Saag, PhD/Leslie Clark, PhD (Center))

**Project Description:** Co-wrote the community research, consultation and qualitative project methodology. The overall mission of the Behavioral Sciences Core (BSC) of the UAB CFAR is to make a substantial contribution to interdisciplinary HIV-Related research – whether initiated by behavioral, clinical, basic science, epidemiology, or other faculty – and assure a value-added contribution to CRAF through integration of behavioral expertise in the fullest range possible of CFAR activities. The BSC's specific aims are as follows: (1) developing the capacity of behavioral sciences faculty throughout UAB to conceptualize and implement HIV-related behavioral research projects including those that are community-, clinically-, and internally-based; (2) developing the capacity of non-behavioral sciences faculty, particularly those associated with the UAB CFAR, in the range of behavioral variables, measures, and interventions that may be incorporated into a comprehensive HIV research program; and (3) facilitating linkages between the CFAR and other centers of behavioral expertise within the UAB community. Specific tasks on the project include advising BSC and CFAR members on the recruitment and retention of representative community-based samples into medical treatment, clinical, vaccine and prevention trails, and evaluation of these community efforts, as well as developing workshops and roundtables in these domains to develop capacity and enhance linkages between the behavioral and non-behavioral investigators.

**Title:** ASU-UAB Partnerships for the Reduction of Reproductive (REAP) Health Disparities in Minority Teens and Young Adults in Alabama (1 R24 MD00151-01)

**Funding Agency:** National Center for Minority Health Disparities (NCMHD)/NIH (EXPORT Resource-Related Research Project)

**Total Amount:** \$293,918/3 years

**Percent Effort on Project:** 10%

**Funding Period:** 10/1/2002 – 9/30/2005

**Role on Project:** Co-Investigator/Director Mentoring Core (PI, Myung-Hi Kim Oh, MD)

**Project Description:** Co-wrote the project proposal and wrote the project methodology. The project is a collaborative effort between Alabama State University (ASU)(an HBCU) and the University of Alabama at Birmingham (UAB). The overall goal of the proposed REAP project, ASU-UAB EXPORT Project, is to advance the Mission and Vision of the NCMHD of reducing and ultimately eliminating minority health disparities in America. The REAP Project employs an interdisciplinary approach to address a significant and well-documented need among ethnic minority groups, reproductive health and health disparities in Alabama. The Mentoring Core will aim to provide a structured pipeline of opportunity for junior faculty and fellow trainees at ASU and UAB to further develop and sustain the growing ASU-UAB partnership through joint pilot research and/or visiting scientist appointments. The ultimate goal of the Mentoring Core is to PREPARE culturally competent health scientists capable of independently contributing to the elimination of the nation's minority health disparities. The anticipated outputs of this project will include an application for an EXPORT Center Grant (P-20 OR P-60) of the NCMHD, NIH in 2005.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title:** National Coordinating and Evaluation Center (NCEC): Sickle Cell Disease (SCD) Community Programs (1 U93 MC 00217-01)

**Funding Agency:** MCHB/HRSA/DHHS

**Total Amount:** \$750,000/year (\$210, 213 [years 1 &2] \$87, 972 [years 2& 3], \$87,973 [year 4] \$91,139 [year 5], \$93,395 [year 6] /UAB site budgets)

**Percent Effort on Project:** 35%

**Funding Period:** 9/2002 – 5/31/2008

**Role on Project:** PI/Project Director and Principal Evaluator

**Project Description:** Co-wrote the project proposal and wrote the project methodology. Based on principles of community-based program and assessment and using a team specifically trained to 'fit' the parameters of the NCEC: The major goals of this project are to serve as the national center for the coordination, monitoring and evaluation 15 funded community-based SCD projects who provide educational and counseling support to patients and families of infants positively screened for SCD or carriers of abnormal hemoglobins. The efforts of these first projects will serve as model for programs that will be funded in later stages of the initiative. Secondly, the purpose of this grant is to provide consultation and technical assistance to the community-based SCD organizations, consumer groups, state agencies, newborn screening programs, SCD treatment and research centers, and other agencies promoting newborn screening and other SCD-related education programs associated with the care of children, adolescents, and adults with SCD for health care workers, patients, and patient support groups in the community. A third goal is to link multiple service sites through a uniform set of databases for pilot-testing and implementation in order to enhance outreach, follow-up care, management and treatment with the aim of reducing early mortality and morbidity for those infants identified with a hemoglobinopathy. As PI/Project Director advocate for standard screening practices, support the efficacy of counseling provision for families; and work to establish a nationwide comprehensive SCD outreach program, standardized assessment tools and linked database all to begin in year one and to be implemented and sustained in subsequent grant periods.

**Title:** Healthy 2010 Alabama: Development and Evaluation

**Funding Agency:** Children's Rehabilitative Services /HRSA Maternal and Child Health Bureau to the Alabama Department of Rehabilitative Services

**Total Amount:** \$42,5000/ongoing

**Percent Effort on Project:** 10%

**Funding Period:** 7/2002 – present

**Role on Project:** Co-PI (PI Beverly Mulvihill, Ph.D.)

**Project Description:** Co-wrote the proposal and methodology section. The project is a collaborative effort between the Children's Rehabilitative Services (CRS) and the Department of MCH, UAB SOPH. Based on Key principles of strategic planning developed by Ginter and Duncan and implementation evaluation, the purpose of the project is assist CRS with the implementation and assessment efforts of the six goals of HP 2010 for Children with Special Health care Needs (CSHCN) in Alabama. The UAB team's role is to: 1) develop and implement the training of CRS central and field staff and workgroup leaders for the purpose of providing input for the 2010 implementation strategy; 2) to develop and implement the assessment of the work of the workgroups; and 3) collaborate on the consolidation, utilization and dissemination of information and relevant findings from the workgroup assessments. The UAB team will work with key CRS staff to prepare all project data reports.

**Title:** Alabama's Children's Health Program (CHIP) Evaluation

**Funding Agency:** Alabama Department of Public Health

**Total Amount:** \$363,769

**Percent Effort on Project:** 15% (years 1-3), 20% (currently)

**Funding Period:** 5/99-6/2005

**Role on Project:** Co-Principal Investigator and Principal Evaluator

**Project Description:** Assisted with the writing of the proposal. The purpose of the evaluation is to assess the effect of the program on reducing the disparity in the access and utilization of health and medical services for children in low income and working poor families. Subsequent funding for the years 2000 to 2002 is pending.

2. Previous Funded Projects

**Title:** Couples HIV counseling in two African Capitals

**Funding Agency:** National Institute of Mental Health (R01 Grant )

**Total Amount:** \$2,000,000/5 year project

**Percent Effort on Project:** 20%

**Funding Period:** 8/2002-9/2004

**Role on Project:** Co-Investigator (PI Susan Allen, MD)

**Project Description:** Co-wrote the research grant with the UAB Center for AIDS Research. The purpose of the grant is to link activities in two capital cities in Africa (Kigali, Rwanda and Lusaka, Zambia) in order to develop, implement and assess the effectiveness of a community voluntary couples testing (HIV) program. **Special expertise provided** in the areas of Community Development, Culturally Competent Qualitative and Quantitative (psychometric), measurement and Indicators item and tool development, community-based collaborative/participatory research, evaluation, and education primary and secondary data collection methods and analyses, problem-solving, review and summary write-up of the research.

**Title:** Alabama Comprehensive Health Services Profile Project (ACHSPP)

**Funding Agency:** Alabama Department of Public Health

**Total Amount:** \$80,000/year

**Percent Effort on Project:** 5%

**Funding Period:** 10/2001 – 9/2003

**Role on Project:** PI/Project Director and Principal Evaluator

**Project Description:** Co-wrote the project proposal and wrote the project methodology. Based on principles of database development and using a team specifically trained to ‘fit’ the parameters of the ACHSPP: a) worked with the ACHSPP staff, community and technical advisory committee and health care specialists to identify and document reproductive and sexual health, medical, dental and allied health practitioners (group), programs and services for persons in Alabama; b) worked with the project team to develop, maintain and update the ACCESS and website services and program database file; and c) in collaboration with ACHSPP staff, and community and technical advisory committee, developed and implemented the protocol for data analysis, review, written product production and use by person accessing the project database and use for technical reports and academic publications.

**Title:** Evaluation Consultation (Technical Assistance) SPRANS Genetics Grantees

**Funding Agency:** Health Resources and Services Administration, Maternal and Child Health Bureau, Division of Services to Children with Special Health Needs

**Total Amount:** \$108,450 total for 2 years

**Percent Effort on Project:** 10%

**Funding Period:** 7/2000 – 6/2002

**Role on Project:** Evaluation Consultant

**Project Description:** Assisted with the writing evaluation consultation statement of work. Based on the Integrated Model of Community-based Evaluation (IMCBE): a) conduct intermittent evaluation capacity building phone and site visits with ten grantees and staff of the HRSA/MCHB Division of Services to Children with Special Health Needs – Genetics Disease Branch; b) review and provide feedback on the design and implementation processes and intermittent outcomes evaluation of the grantees; c) assisted grantees in the re-development of their objectives to make them specific, measurable, attainable, relevant and time anchored; d) assisted grantees in the development of common, content and site specific indicators, and measures; e) provided assistance to HRSA/MCHB Division of Services to Children with Special Health Needs – Genetics Disease Branch staff and 10 community project grantees on issues and situations specific to community evaluation outreach, collaboration, negotiation and program development and sustainment; and f) provided assistance to HRSA/MCHB Division of Services to Children with Special Health Needs – Genetics Disease Branch staff with professional and protocol development.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title:** Birmingham Health Care Homeless Project – Evaluation Component  
**Funding Agency:** Substance Abuse and Mental Health Services Administration (SAMHSA)  
**Total Amount:** \$225,000 per year (\$22,607/site budget)  
**Percent Effort on Project:** 5 % per year  
**Funding Period:** 3/2000 - 11/2000  
**Role on Project: Principal Evaluator**

**Project Description:** Assisted with re-writing evaluation component. Based on the Integrated Model of Community-based Evaluation (IMCBE): a) using the project's measurable objectives, the SAMHSA logic model indicators, and in collaboration staff, developed the quantitative and qualitative measures, data collection instruments and protocols; b) in collaboration with staff, developed and implemented the protocol for data analysis, review, written product production and use by the project; and c) "Building Capacity to Build Capacity" by providing introductory and on-going in-service training on the fundamental principles and methods of community evaluation.

**Title:** Children's Rehabilitative Services Traumatic Brain Injury Program- Evaluation Component  
**Funding Agency:** HRSA Maternal and Child Health Bureau to the Alabama Department of Rehabilitative Services

**Total Amount:** \$3,500/ongoing  
**Percent Effort on Project:** 4%  
**Funding Period:** 2/2000 – 12/2001  
**Role on Project: Evaluation Analyst**

**Project Description:** Assisted with the development, implementation and formative evaluation of the outreach, case coordination service collaboration, and training components of this multi-year project aimed at the prevention of poor quality of life outcomes. Conducted the review and analyses of all standardized and project specific instruments and the resulting qualitative and quantitative data. Prepared all project data reports.

**Title:** Evaluation of the Alabama Community-based Outreach and Education Initiatives  
**Funding Agency:** Bureau of Family Health Services (BFHS) of the Alabama Department of Public Health (ADPH)

**Total Amount:** \$150,000  
**Percent Effort on Project:** 10%  
**Funding Period:** 1/2000 - 6/2001  
**Role on Project: Principal Evaluator**

**Project Description:** Wrote evaluation grant. Based on the Integrated Model of Community-based Evaluation (IMCBE): a) conduct intermittent evaluation capacity building workshops for BFHS staff and grantees; b) design and implemented process and intermittent outcomes evaluation; c) assisted grantees in the re-development of their objectives to make them specific, measurable, attainable, relevant and time anchored; d) assisted grantees in the development of common, content and site specific indicators, and measures; e) collaborated, coordinated and implemented with BFHS staff and grantees the projects' protocols, instrument and methods to collect state-level and project specific data; f) developed and implemented the protocol for data analysis, review and use by the BFHS staff and Community projects; and g) provided assistance to BFHS staff and community projects on issues and situations specific to community outreach, collaboration, negotiation and program development and sustainment.

**Title:** Northern Health Clinic Teen Outreach - Evaluation Component

**Funding Agency:** Jefferson County Department of Public Health  
**Total Amount:** \$3,000/ongoing  
**Percent Effort on Project:** 4%  
**Funding Period:** 10/99 - 8/2000  
**Role on Project: Evaluation Consultant**

**Project Description:** Assisted with the development, implementation and formative evaluation of the outreach, education and behavior change intervention component of this multi-year project aimed at the prevention of subsequent pregnancies and births of teen mothers Northern Birmingham Area of Alabama.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title:** Housing Program Plus Development Project .

**Funding Agency:** Fannie Mae Foundation to Betty Bock and Robert Corely, PIs, of the UAB Center for Urban Affairs.

**Total Amount:** \$2,727,977 total cost of the project over a three year period

**Percent Effort on Project:** 5% on project with evaluation support of 15%

**Funding Period:** 9/98-12/2000

**Role on Project: Co-Investigator and Principal (Community-based) Evaluator**

**Project Description:** Assisted with writing the grant. The evaluation component is a collaborative/participatory approach that is based on the methods of the Integrated Model of community-based Evaluation (IMCBE) originated by the evaluator that includes a resident and neighborhood asset assessment and building component.

**Title:** Birmingham Healthy Start Community Outreach component – Program and Community-based Evaluation Component

**Funding Agency:** Jefferson County Department of Public through a grant from the Federal Maternal and Child Health Bureau

**Total Amount:** \$140,000(funding-to-date)/ongoing

**Percent Effort on Project:** 8%

**Funding Period:** 6/98 - 8/2001

**Role on Project: Co-Investigator and Community-based Evaluator**

**Project Description:** Wrote community-based evaluation grant. Collaboratively developed, implemented and formatively evaluating the community outreach and networking component of this multi-year project aimed at the reduction of infant mortality negative maternal outcomes in the Greater Birmingham Area of Alabama.

**Title:** Implementation and Use of the Alabama Sickle Cell Disease Registry (Research Project 7)

**Funding Agency:** National Heart, Lung & Blood Institute (P60 Grant # 1P60HL58418-01)

**Total Amount:** \$300,000/5 year for research project 7

**Percent Effort on Project:** 10%

**Funding Period:** 4/98-3/2001

**Role on Project: Principal Investigator (Project 7) (Tim Townes, PhD Center PI)**

**Project Description:** Wrote the research grant. This social epidemiological research is using a collaborative/participatory approach that is based on the methods of the Integrated Model of community-based Evaluation (IMCBE).

**Title:** Hale County Empowerment and Revitalization Organization (H.E.R.O.), Inc. - Rural Health Outreach Project

**Funding Agency:** U.S. Office of Rural Health

**Total Amount:** \$500,000 total cost of the project over a three year period to HERO

**Percent Effort on Project:** 10%

**Funding Period:** 10/97-9/2000

**Role on Project: Co-Investigator and Principal Evaluator**

**Project Description:** Assisted with writing the grant. Collaboratively developed, implemented and formatively evaluating this first time health-based outreach and targeted service delivery project. The evaluation is a collaborative/ participatory approach that is based on the methods of the Integrated Model of community-based Evaluation (IMCBE) originated by the evaluator that includes a “Building Capacity to Build Capacity” component.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title:** YWCA of High Point/Sickle Cell Disease Association of the Piedmont (High Point and Greensboro, North Carolina) Collaborative Adolescent Pregnancy Prevention Project (CAPPP) - Evaluation

**Funding Agency:** North Carolina Department of Health

**Total Amount:** \$100,000 per year total project cost / 5 year project

**Percent Effort on Project:** 5%

**Funding Period:** 8/97 - 8/02

**Role on Project:** Co-Investigator and Principal Evaluator

**Project Description:** Wrote evaluation grant. Collaboratively developed, implemented and formatively evaluating the CAPPP community-based outreach and participatory efforts aimed at primary pregnancy prevention, abstinence, resistance and decision-making skill building and empowerment of adolescents.

**Title:** Evaluation of the Alabama Community-based Perinatal Initiatives

**Funding Agency:** Bureau of Family Health Services (BFHS) of the Alabama Department of Public Health (ADPH)

**Total Amount:** \$85,000

**Percent Effort on Project:** 10%

**Funding Period:** 8/97 - 8/2000

**Role on Project:** Evaluator

**Project Description:** Wrote evaluation grant. Based on the Integrated Model of Community-based Evaluation (IMCBE): a) develop, based on state-level Perinatal measurable objectives and core principles of the BFHS, indicators, measures, data collection instruments and protocols; b) review and come to an agreement with funded projects on project specific measurable objectives, indicators and measures and methods to collect state-level and project specific data; and c) develop and implement a protocol for data analysis, review and use by the BFHS and Community Perinatal support and medication/transportation projects.

**Title:** Bureau of Family Health Services (BFHS) of the Alabama Department of Public Health (ADPH) Community-based Health Initiatives (CBI) – Evaluation Component

**Funding Agency:** Funded as a separate part of the State Systems Development Initiative (SSDI) contract to the UAB Department of Maternal and Child Health

**Total Amount:** \$105,000

**Percent Effort on Project:** 10%

**Funding Period:** 8/97 - 8/2000

**Role on Project:** Evaluator

**Project Description:** Wrote evaluation grant. Based on the Integrated Model of Community-based Evaluation (IMCBE): a) develop, based on state-level CBI measurable objectives and core principles of the BFHS, indicators, measures, data collection instruments and protocols; b) review and come to an agreement with funded projects on project specific measurable objectives, indicators and measures and methods to collect state-level and project specific data; c) develop and implement a protocol for data analysis, review and use by the BFHS and CBI projects; and d) “Building Capacity to Build Capacity” by providing introductory and on-going in-service training to grant recipients, regional and state-level administrators on the fundamental principles and methods of community evaluation.

**Title:** Population approach to linking social/health services and clinical management issues of sickle cell disease (SCD).

**Funding Agency:** University of Alabama at Birmingham’s Lister Hill Center for Health Policy

**Total Amount:** \$14,021

**Percent Effort on Project:**

**Funding Period:** 6/97 - 8/98

**Role on Project:** Principal Investigator

**Project Description:** Assisted with writing the research grant. Small grant aimed at: a) developing a social epidemiological profile of persons with SCD in North Carolina; b) developing and refining a multi-conceptual ecological model linking bioclinical and disease management, health and human services and community-based contextual domain; and c) to utilize differing statistical methodologies in the demonstration of key components of the multi-conceptual model.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title:** Medical Center of Delaware Adolescent Maternity Service (AMS) Pregnancy Intervention Project - Evaluation

**Funding Agency:** Christiana Care of Delaware

**Total Amount:** \$74,692 / 2-year project

**Percent Effort on Project:** 10%

**Funding Period:** 4/96-11/99

**Role on Project: Principal Investigator and Principal Evaluator**

**Project Description:** Wrote evaluation grant. Developed, implemented and currently formatively evaluating the AMS's community-based outreach and participatory efforts aimed at secondary pregnancy reduction, reduction of post-natal complications and life-skill empowerment of adolescents.

**Title:** Evaluation of the Cumberland County Partnership for Children (CCPFC) Smart Start Initiative - Evaluation

**Funding Agency:** State of North Carolina Department of Human Services

**Total Amount:** \$190,274

**Percent Effort on Project:** 10%

**Funding Period:** 12/95-9/2002

**Role on Project: Principal Investigator and Principal Evaluator**

**Project Description:** Assisted with writing the evaluation grant. Developed, implemented and currently formatively evaluating the efforts of the CCPFC to locally implement the statewide, community-oriented initiative aimed at empowering families to build on strengths and increase the overall well-being of children. The evaluation is a collaborative/ participatory approach that is based on the methods of the Integrated Model of community-based Evaluation (IMCBE) originated by the evaluator. The project also includes a "Building Capacity to Build Capacity" component that involves the provision of introductory and on-going training with grant recipients on the fundamental principles and methods of community evaluation

**Title:** North Carolina Regional Research Center on Head Start Quality

**Funding Agency:** Administration on Children, Youth and Families, Department of Health and Human Services

**Total Amount:** \$2,390,697

**Percent Effort on Project:** 10%

**Funding Period:** 10/95-7/96

**Role on Project: Co-Investigator**

**Project Description:** Assisted with writing the research grant. Lead community and family program evaluation component, assist with health evaluation section and the research team with the development and implementation of measures suitable for documenting quality in these domains of service delivery.

**Title:** Division of Policy and Ethics, Duke/UNC Comprehensive Sickle Cell Center

**Funding Agency:** National Heart, Lung and Blood Institute, NIH

**Total Amount:** \$ 75,000

**Percent Effort on Project:** 10%

**Funding Period:** 5/95-9/96

**Role on Project: Co-Principal Investigator and Associate Director**

**Project Description:** Assisted with writing the grant. Assist with management of business and service activities; development, implementation and analysis of health services and community based research of issues impacting persons with Sickle Cell Disease.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title:** North Carolina Smart Start Family Ties Project - Evaluation

**Funding Agency:** The State of North Carolina, Department of Human Resources, Division of Family Development

**Total Amount:** \$42,277.00

**Percent Effort on Project:** 20%

**Funding Period:** 11/94-8/95

**Role on Project: Principal Investigator and Principal Evaluator**

**Project Description:** Wrote evaluation grant. Development, implementation and analysis of needs and assets assessment procedures, materials and data. Participate in community level decision making. Collaborate with state level and local (county) agency personnel in the utilization and dissemination of information from project.

**Title:** Training Program in Maternal and Child Health

**Funding Agency:** Bureau of MCH

**Total Amount:** \$1,552,205

**Percent Effort on Project:** 14%

**Funding Period:** 7/94-9/96

**Role on Project: Investigator**

**Project Description:** Assisted with writing the grant. Provide academic and practical skill training to students enrolled in the Department of Maternal and Child Health, University of North Carolina at Chapel Hill.

**Title:** Bridges Community Resource Center - Evaluation

**Funding Agency:** Cumberland County (North Carolina) Schools

**Total Amount:** \$50,000

**Percent Effort on Project:** 5 %.

**Funding Period:** 7/94-9/2002

**Role on Project: Principal Investigator and Evaluator**

**Project Description:** Wrote evaluation grant. Development, implementation and analysis of program services data. The evaluation is a collaborative/participatory approach that is based on the methods of the Integrated Model of community-based Evaluation (IMCBE) originated by the evaluator

**Title:** North Carolina Smart Start House Calls Project - Evaluation

**Funding Agency:** The State of North Carolina, Department of Human Resources, Division of Family Development.

**Total Amount:** \$24,012.00

**Percent Effort on Project:** 20%

**Funding Period:** 3/94-6/94

**Role on Project: Principal Investigator and Evaluator**

**Project Description:** Wrote evaluation grant. Development, implementation and analysis of needs assessment procedures and data. Participate in community level decision making. Collaborate with state level and agency personnel and utilization and dissemination of information from project.

**Title:** Epidemiological Analysis of Client and Program Characteristics for the North Carolina State Sickle Cell Syndrome Program

**Funding Agency:** Junior Faculty Development Award from the University of North Carolina at Chapel Hill

**Total Amount:** \$3,000

**Percent Effort on Project:** 5%

**Funding Period:** 1/94-12/94

**Role on Project: Principal Investigator**

**Project Description:** Wrote research grant. Development, implementation and analysis of cross-sectional study of characteristics of clients using North Carolina Sickle Cell Syndrome Services in 1993.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title:** Smart Start Inclusion Project, Principal Investigator Virginia Buysse, Frank Porter Graham Child Development Center

**Funding Agency:** State of North Carolina Department of Human Services

**Total Amount:** Funds shared with Smart Start Project

**Percent Effort on Project:** 10%

**Funding Period:** 12/93-9/96

**Role on Project:** Co-Investigator

**Project Description:** Assisted with writing of the analysis grant. Developed and assisted with the writing of the measurement procedures for the family, provider, and community resource/service components. Overall analysis of the project with special emphasis on family, provider, and community resource/service issues.

**Title:** Parental Caregiving with Infants Sero-Positive for HIV, Principal Investigator Margaret Miles, UNC-CH School of Nursing

**Funding Agency:** U.S. Department of Health and Human Services

**Total Amount:** \$1,163,426

**Percent Effort on Project:** 10%

**Funding Period:** 6/93-5/96

**Role on Project:** Investigator

**Project Description:** Assisted with writing of the grant. Developed and assisted with the writing of the measurement procedures for the family and community resource components. Overall analysis of the project with special emphasis on family and community resource issues.

**Title:** Pilot Study for the Development of a Program of Transition for Individuals with Sickle Cell Disease

**Funding Agency:** Comprehensive Sickle Cell Program and the School of Public Health's Center for Minority Health at the University of North Carolina at Chapel Hill.

**Total Amount:** \$3,000

**Percent Effort on Project:** 5%

**Funding Period:** 9/92-6/94

**Role on Project:** Principal Investigator

**Project Description:** Wrote research grant. The primary aim of the study was the development, piloting and analyzing a set of new instruments designed to assess perceptions about transition to adult care of adolescents and adults with sickle cell disease, their parental caretakers and national cohort of providers.

**Title:** Evaluation of North Carolina's Smart Start Program

**Funding Agency:** State of North Carolina, Department of Human Resources, Division of Family Development

**Total Amount:** \$600,000

**Percent Effort on Project:** 10%

**Funding Period:** 7/93- 9/96

**Role on Project:** Co-Investigator

**Project Description:** Assisted with the writing of the research grant. Developed and assisted with the writing of measurement procedures for the medical, family, and community resource/service components. Overall analysis of the project with special emphasis on medical, family, and community resource/service issues.

**Title:** Parental Care-giving with HIV Infectious Infants

**Funding Agency:** NIMH

**Total Amount:** \$1,163,426

**Percent Effort on Project:** 9%

**Funding Period:** 6/93-5/96

**Role on Project:** Investigator

**Project Description:** Assisted with the writing of the research grant. Develop and write conceptual and measurement procedures for the family and community resource components. Overall analysis of the project with special emphasis on qualitative methods and issues of family and community resources.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title:** National Study of Existing Mutual Assistance Groups for Adolescents with Sickle Cell Disease and Impact of Mutual Assistance Groups on the Psychosocial Functioning of Adolescents with Sickle Cell Disease

**Funding Agency:** Duke University Comprehensive Sickle Cell Center, at the University of North Carolina, Chapel Hill

**Total Amount:** \$100,000

**Percent Effort on Project:** 50%

**Funding Period:** 7/91-6/92

**Role on Project:** Co-Principal Investigator

**Project Description:** Wrote the research grant. Supplemental Project to the Parent Grant -- The Impact of Self-Help Groups on Adults with Sickle Cell Anemia, NIH Grant# 5P60 HL28391-08---303-6639, Kermit Nash, Ph.D., P.I.

**Title:** Psychological Effects on Symptom Perception (Barbara Curbow Ph.D, PI)

**Funding Agency:** Johns Hopkins University, School of Hygiene and Public Health, Department of Environmental Health Sciences

**Total Amount:** \$250,000

**Percent Effort on Project:** 10%

**Funding Period:** 1/87-8/87

**Role on Project:** Research Assistant

**Project Description:** Programming/Data Analysis various projects

**Title:** Impact of Hospital Discharge Planning on Patient Outcomes (Donald Steinwachs Ph.D. P.I ) 5-R18 HS 05410

**Funding Agency:** National Center for Health Services Research

**Total Amount:** \$350,000

**Percent Effort on Project:** 10%

**Funding Period:** 5/86-9/86

**Role on Project:** Research Assistant

**Project Description:** Programming/Data Analysis various projects

### 3. Other Funded Practice-based Research

**Title:** Multi-Site Pilot Study of Transition to Adult care for Adolescents with Sickle Cell Disease

**Funding Agency:** Internal funds from University of Alabama at Birmingham to the UAB Comprehensive Sickle Cell Center

**Total Amount:** \$3,000

**Percent Effort on Project:** 5%

**Funding Period:** 1/98 to 5/04

**Role on Project:** Principal Investigator

**Project Description:** Wrote the research grant. Building on previous pilot (1994) research, this national study was designed to implement and analyze a set of data collection tools designed to assess adolescent, young adults with sickle cell disease and their parental caretaker perceptions regarding and readiness for transition to adult care and life.

**Title:** Care utilization and Costs for Medicaid Covered Children with Sickle Cell Disease (SCD): A ten year review of Alabama's Claims

**Funding Agency:** Internal funds from University of Alabama at Birmingham to the UAB Comprehensive Sickle Cell Center

**Total Amount:** \$3,500

**Percent Effort on Project:** 5%

**Funding Period:** 1/98 to 2/04

**Role on Project:** Co-Principal Investigator (Janet Bronstein, PhD, PI)

**Project Description:** The goal of this project is to document the average care costs of care and the distribution of costs of care, by type of service provided, across the population of children ages 0 to 18 years who are diagnosed with SCD.

4. **Pending Research/Evaluation**

**Title:** Measurement of MCH Core Practice Principles at the Community Level

**Funding Agency:** Potential funder: MCHB

**Total Amount:** funding request \$300,000 (planned)

**Percent Effort on Project:** 10% (planned)

**Funding Period:** 5/years (planned)

**Role on Project:** **Principal Investigator**

**Project Description:** One of the primary objective of the study is to test reliability and level of integration a set of measures that are specific to the core MCH practice principles of family-centeredness, community-based, coordinated/collaboration and cultural competence. The study will use collected and to-be-collected data from the Program Questionnaire (a tool developed and pilot tested by the PI). The data will come from providers of health and human services in two Southeastern states. A second primary objective is refine the Program Questionnaire for use by provider of MCH health and Human services in community settings.

3D. **Other Scholarly Research and Evaluation**

1. **Methodologies**

a. **Integrated Model of Community-based Evaluation (IMCBE)** (1997).

**Purpose:** Community projects and settings pose difficult and unique challenges in designing and implementing sound evaluations. There is a lack of conceptual and practical fit between the needs of service providers and those hired to conduct evaluations. The approach that forms the foundation of the *Integrated Model of Community-based Evaluation (IMCBE)* is designed to address and provide a functional framework to provide this fit.

**Rationale and Knowledge base:** Based on knowledge gained and lessons learned from more than 15 years of community-based evaluation training and experience, the IMCBE is a conceptually sound evaluation methodology that allows for a bridging of social scientific rigor with an understanding of the elements essential for addressing community members' and agencies' needs for meaningful outcomes that allow them to determine the efficiency and effectiveness of their efforts. Developed in 1997 this approach to evaluating programs located in community settings is based on the integration of principles of community development, competence, outreach and capacity building and participatory and collaborative approaches to evaluation that emphasize involving those being evaluated in the evaluation process. The model illustrates the prerequisites, characteristics, foundational principles and implementation phases viewed as necessary to successfully conduct a true community-based evaluation that maintains the scientific rigor to make the results meaningful to the program administrators and participants as well as present and future sources of funding. The emphasis in this approach is on mutual respect leading to an understanding of the elements that are essential to satisfying the community members' needs for meaningful outcomes and federal, state, and local funding agencies' needs to determine the efficiency and effectiveness of the way in which their dollars are being put to use.

**Documentation:** A full discussion of the IMCBE can be found in **Telfair, J.** & Mulvihill, B.A. (2000) Bridging Science and Practice: The Integrated Model of Community-Based Evaluation. *Journal of Community Practice*, 7(3): 37-65.

**Use:** The approach of the IMCBE forms the foundation for several funded Public Health Practice efforts including work with the Maternal and Child Health Bureau, the states of North Carolina and Alabama, the Couples HIV counseling in two African Capitals NIH R01 (**Susan Allen**, PI) and the recently funded Sickle Cell Disease National Coordinating and Evaluation Center and the Stroke Belt Elimination Initiative (Magic City Stroke Prevention Project) (**J. Telfair**, PI on both projects).

2. Assessment Tools

a. The Sickle Cell Transfer Questionnaire (SCTQ) (1994, modified 1996)

**Purpose:** The *Sickle Cell Transfer Questionnaire (SCTQ)* has four versions, all designed to elicit provider (P-SCTQ), adolescent (A-SCTQ), young adult (YA-SCTQ) and parent/primary caregiver (PA-SCTQ) -expressed concerns about or demonstration of transition behaviors, expectations of transition, and opinions regarding the need for a systematic transition. The SCTQ is designed for use in research and clinical setting and can be used both cross-sectionally and longitudinally for baseline and outcome assessments.

**Development and Methods:** The questionnaires is based on observational experiences of adolescents, young adults, parents/primary caregivers, pediatric and adult clinicians, and interviews with multidisciplinary providers serving adolescents and young adults with Sickle Cell Disease (respectively), and literature findings regarding issues faced by the Sickle Cell Disease (SCD) other adolescent and young adult populations with chronic conditions. The first draft of the SCTQ was written by clients and a team of multidisciplinary providers who were representative of the potential study groups. The draft consisted of 4 sections: 1) demographics, 2) transfer criteria/expectations, 3) transfer concerns, and 4) transfer experiences.

**Results and Outcomes:** Based on investigators' collective expertise, an open-ended questionnaire format was thought to be the most consistent with the utilization-focused, participatory approach of the overall survey. Three Delphi rounds of review were conducted with the first draft of the SCTQ by a working team of multi-disciplinary providers. Based on the Delphi results, responses were used to generate limited checklists and open-ended questions. After the last Delphi round, a pilot draft was developed and tested, resulting in the finalized version which was put into use in 1996.

**Documentation:** Research for the four versions of the SCTQ are found in the initial publication **Telfair, J., Myers, J., and Drezner, S. (1994).** Transfer As a Component of the Transition of Adolescents with Sickle Cell Disease to Adult Care: Adolescent, Adult and Parent Perspectives. Journal of Adolescent Health. 15(11): 558-565 and subsequent publications by Telfair and his colleagues in 1998 and 2004.

**Use:** Since it was finalized date for the SCTQ adolescent, parent/primary caregiver and young adult versions have been collected in collaboration with the members of the Multi-Site Study of Transition of Adolescents and Young Adults with Sickle Cell Disease Collaborative Group (current n = 22 sites and growing) and is currently used (in its original for or modified) by an ever growing group of community service providers and researchers interested in the issue of transition to adult care for young persons with SCD and other chronic conditions.

b. The Sickle Cell Self-Care Agency in Adults - Chronic Illness Assessment Interview for Sickle Cell Disease (CIAI-SCD) (2001)

**Purpose:** *Chronic Illness Assessment Interview for Sickle Cell Disease (CIAI-SCD)*, is an instrument based on a model of self-care for adult patients with chronic medical conditions (Connelly, E.C. Self-Care and the Chronically Ill Patient. *Nursing Clinics of North America*, 1987 22:621-629). Self-care refers to the process by which patients take an active role in their health care and management of their condition. The CIAI-SCD assesses an individual's perceptions of general health and psychological well-being, which are assumed to be the underlying factors necessary for successful self-care in the context of a chronic illness.

**Development and Methods:** The CIAI-SCD was administered to 104 adults with Sickle Cell Disease. Factor analysis identified three factors that reflected the psychological constructs of health satisfaction, health-related anxiety, and health-related social support. Preliminary evidence for the internal consistency, test-retest reliability, content validity, construct validity, and convergent validity of the CIAI-SCD was obtained.

**Results and Outcomes:** The test-retest reliability analyses show adequate stability of this instrument, measured with a time interval of approximately six months, with test-retest correlations ranging from .45 to .55. Further evidence for the reliability of two of the subscales was provided by the observed levels of internal consistency. The estimated alpha for the three sub scales Cronbach's alpha was calculated for each of the three CIAI-SCD subscales. This resulted in an alpha of .86 for the health satisfaction subscale, .80 for the health anxiety subscale, and .66 for the health support subscale. The latter subscale consisted of only three items. Because internal consistency estimates are dependent on the number of scale items, the Spearman-Brown prophecy formula was applied to the health support subscale to determine the number of additional items necessary to elevate alpha to .80 (Nunnally & Bernstein,

1994), which indicates a good level of reliability. Results indicated that the addition of three items to the subscale (for a total of 6 items) would yield an estimate for Cronbach's alpha of exactly .80. An analysis of the inter-scale correlations indicated that each subscale was marginally related to the other two, though none of the relationships achieved statistical significance. The health satisfaction and health anxiety subscales tended to be negatively related ( $r = -.18, p < .08$ ), while small positive correlations between health anxiety and health support ( $r = .17, p < .09$ ), as well as between health satisfaction and health support ( $r = .19, p < .06$ ), were observed. Eighty-four of the original 104 (adults) participants (82%) were assessed a second time, six months after the first assessment. The 6-month test-retest reliability for each subscale was as follows:  $r = .55$  for the health satisfaction subscale ( $p < .001$ ),  $r = .48$  for the health anxiety subscale ( $p < .001$ ), and  $r = .45$  for the health support subscale ( $p < .001$ ). After further refinement and validation, the CIAI-SCD has proven to be a useful tool for assessing factors related to self-care skills among adults with sickle cell disease.

**Documentation:** Research for this scale is presented in Lenoci, J., Telfair, J., Cecil, H. and Edwards, R.R.,(2002). Development and Testing of a Tool to Assess Self-Care Agency in Adults with Sickle Cell Disease. Western Journal of Nursing Research. 24(3): 228-245.

**Use:** The CIAI-SCD is has been reviewed for potential use by a number of agency and individuals, it has been used by the Sickle Cell Disease Association of the Piedmont (North Carolina), in the successfully defended dissertation (PhD nursing University of South Carolina ) of Corettea Jenerette, PhD, RN, AOCN currently at the Yale University School of Nursing where she plans to use it in a recently applied for study of health disparities in person with SCD; it has recently been requested for use by Maxine Adegbola at the University of Texas at Arlington in her study 'Caring management of vulnerable populations, specific interest sickle cell disease' .

c. Sickle Cell Disease Self-Efficacy Scale (SCSES) (1999)

**Purpose:** Self-efficacy (SE), a component of social learning theory developed by Bandura, 1977), and refers to personal judgments concerning one's capacity to perform specific actions which result in specific outcomes. In particular, self-efficacy focuses on individuals' convictions that they can exercise control over their motivations, behaviors, and social environments. Typically, self-efficacy is conceptualized in a situation-specific manner rather than as a personality trait, indicating that efficacy beliefs may vary widely across environments and situations. Support for the potential utility of self-efficacy as a mediator of SCD coping is provided by research in the area of adjustment to chronic illness. Thus, Self-efficacy was believed to be of importance for SCD to date, however, only one study has investigated the role of self-efficacy in psychosocial adjustment to SCD (Thompson et al., 1998), and this is the only tool specifically designed to measure SE in persons with SCD.

**Development and Methods:** The psychometric properties of the 9-item scale measuring disease-specific perceptions of self-efficacy were investigated in a community-based sample of adults (N=83) with sickle cell disease (SCD). The *Sickle Cell Self-Efficacy Scale (SCSES)* was comprised of nine questions relating to participants' perceptions of their ability to function on a day-to-day basis and to manage SCD symptomatology (e.g., episodes of pain). On a five point Likert scale response choices range from "not at all sure (1)" to "very sure (5)". As the items comprising the SCSES were relatively few (nine), queried efficacy beliefs in rather general terms, and were based on responses from fewer than 100 study participants, we elected not to factor-analyze the scale. Thus, total scores were obtained by summing responses to all nine items, with higher scores indicating greater self-efficacy.

**Results and Outcomes:** Results of the initial psychometric testing of the SCSES demonstrated a Chronbach Alpha of .89 and on re-test the Alpha was .84. Thus, the SCSES demonstrated good test and re-test internal consistency, discriminant validity, and convergent and predictive validity, both with previously validated measures of related constructs as well as with reported SCD symptomatology, in that levels of SCD-specific efficacy beliefs related negatively to levels of SCD symptomatology and scores on the SCSES related positively to measures of self-esteem, mastery, and internal locus of control. The SCSES psychometric properties for the Overall, the instrument appears reliable and valid for assessing clients' self-efficacy for engaging successfully in day-to-day activities despite having SCD.

**Documentation:** Research for this scale is presented in two paper demonstrating its initial test and re-test capabilities. These are Edwards, R. R., Telfair, J., Cecil, H., and Lenoci, J., (2000). Reliability and validity of a Self-Efficacy Instrument Specific to Sickle Cell Disease. Behaviour Research and Therapy 38(2000): 951-963. and Edwards, R., Telfair, J., Cecil, H. and Lenoci, J., (2001) Self-efficacy as a Predictor of Adult Adjustment to Sickle Cell Disease: One-Year Outcomes. Psychosomatic Medicine 63(5): 850-858.

**Use:** Overall, the SCSES demonstrated good reliability and validity, and therefore appears suitable for use with adult SCD populations. Moreover, it is to be the first available disease-specific efficacy measure utilized with a sickle cell population. This relatively brief instrument could be easily administered in a community health-care setting. Given the intimate ties between self-efficacy and behavior established in a number of studies across diverse populations, as well as the availability of interventions that have been demonstrated to enhance self-efficacy, identification of at-risk individuals low in self-efficacy may provide opportunities to reduce adverse SCD impact. Assessment of efficacy beliefs in this population might lead to interventions targeted toward those individuals who are at high risk for poor symptom management and decreased psychosocial adjustment as a consequence of low self-efficacy. As part of the Self-care agency and Sickle Cell Transfer Questionnaires, the SCSES is in use by a number of agencies and researchers and is under consideration for use by scientist in training and community-based agency personnel who wish to study and/or develop interventions for addressing the psychological aspects of SCD.

d. **Program Questionnaire (PQ)** (1994, modified 1996)

**Purpose:** Federal and local legislation and advocacy efforts have led to a growing effort to assure that services to women, children, adolescents, and families adhere to the four Maternal and Child Health core principles for an ideal system of care: family-centered, community-based, coordinated, and culturally competent (MCHB, Integrated Services Application Guidance, 1998). A critical goal for these efforts is the adoption by service providers of these core service principles and related practices. Despite these endeavors, little importance has been placed on the measurement of these four core principles as part of the assessment or evaluation of MCH service programs. The latter is critical if policy-makers, funders, administrators, and service providers are to determine the extent to which programs actually adhere to, practice, and effectively implement these four core principles of care. The ***Program Questionnaire (PQ)*** was designed to assess the multi-faceted nature of program functioning specific to service activities, principles of practice with clients and their families (family centered-care), collaboration with other agencies, attention to the diverse cultures of the clients they serve and perceptions of the communities in which services are provided. Its use is for programs and agencies serving women, children, adolescents and their families. It was believed that in order to capture program functioning it was vital that measures of these parameters are captured comprehensively from the point of view of the program staff member as a self-assessment not of themselves, but that of their program. This instrument not only allows for a general assessment of program/service specific to the core principles; but for the identification of areas that need to be further addressed or targeted and allow service providers to assess areas where they need to grow or are growing or need to be further assessed. The ability to make analytic comparisons and linkages with key indicators of the core principles of MCH is of critical importance.

**Development and Methods:** Items and scales for the PQ came from adaptation of existing tools (used with permission), items recommended in the literature and by a group of service providers in two Delphi and one pilot round of assessment in 1994 and revision of the PQ in 1996. Specifics of the Variables and Measures of the PQ comprise four concepts and six assessment components: 1) **Family Centered Activities** based on the practice principles guiding the overall program and specific staff was measured using the modified (for this project) ***Family-Centered Program Rating Scale - Provider's Version (FCPRS-P)*** developed by the Beach Center on families with disabilities (Murphy, Lee, Turbiville, Turnbull and Summers, 1991). It consists of 59 statements about program features (only 23 of the questions are used as part of the current evaluation). 2) **Agency Collaboration** principles and practices was measured using the ***Visionary Focus (VF)*** and ***People and Relationships (PR)*** subscales of the ***Collaborative Practices Inventory (CPI)*** developed by Elder (1994) of the Carlson Learning Company. 3) **Program Specific Cultural Competence (PSCC)** was measured using a modified version of the Cultural Service Delivery Assessment Questionnaire developed by the National MCH Resource Center on Cultural Competency [Evans, 1994]). As part of it use here the PSCC (tentatively) is made up of an Overall (Total Competence [TC]) and five subscales - Service Access (SA), Service Outreach (SO), Staff Training (ST), Service/Program Adaptation (SPA), and Staff Integration and Involvement (SII). 4) **Community Involvement, Awareness, Empowerment and Child Service, Quality of Life** was measured using the ***Community Perception Questionnaire (CPQ)*** developed specifically for this tool. The CPQ is a 15 item, Likert 5 + 5 format ("Never" to "Very Often" and "Strongly Disagree" to "Strongly Agree") designed to assess the program staff member's perception of the extent to which individuals in the communities they serve are involved, are aware of problems and other issues, feel empowerment and understand the quality of life of services for children. 5) qualitative questions soliciting the program staff's perception of: a) what the program does to make it user friendly for families

and b) what the program could do to be more helpful and welcoming to families. 6) Additional Demographic Questions were gathered on the program staff's gender, years of schooling, race/ethnicity, age, parental status, age of children, length of time in and proximity to place of employment, and zip code. **Documentation:** Report on the use of the PQ can be found in a number of state-level technical reports by J. Telfair such as **Telfair, J.** and Dodson, J. , Community-based Perinatal Grant Initiatives Final Evaluation Report, 1999-2000. Technical report prepared for the State of Alabama Bureau of Family Health Services, Division of Women's and Children's Health - Women's Health Branch, Alabama, December 2000 and in the publication **Telfair, J.** (2003) An Evaluation of State Perinatal Community-based Programs in Alabama: Overview. Public Health Reports, 118:484-486. **Use:** The PQ as an evaluation tool is designed to be used both cross-sectionally and longitudinally to provide a service program with a baseline and intermittent assessment of their progress in meeting four Maternal and Child Health core principles. To date work is in progress to use of the cumulated data of 69 agencies and programs representing 389 staff person who completed the PQ and 98 who have completed it twice. The plan is to look at programs by type - referral/screening (low contact) and service provision (high contact) - and nature (specific program/service groupings e.g., child care, mental health, etc.) to determine if, why and how important is the assessment and relationship of the core principles (e.g., cultural competence, family centeredness, etc.) by type and nature of the program.

## 4. Teaching and Advising

### 4A. Teaching: University Coursework

#### 1. Course Taught at University of Alabama at Birmingham (UAB) 1997 to Present

Quantitative ratings by students of the overall quality of the course and instructor range from 1 = 'Excellent' to 5 = 'Poor'

<b>MCH 712 – Issues of Diversity and Cultural/Linguistic Competency Associated with Health Access, Utilization and Disparities (Prior to 2002 the course title was “The influence of Race, Ethnicity and Poverty on Maternal and Child Health” – based on new knowledge, the content was updated and the name changed)</b>

**4. Special Studies Courses Taught at University of North Carolina at Chapel Hill (UNC-CH) 1993 to 1996**

**Spring 1995 (UNC-CH)**

- MHCH 140(49) - Independent Study (1 student)
- MHCH 211L - Adolescent Health Services - Lab (7 students)
- HPAA 140(6) - Rural Health: An Interdisciplinary Approach with faculty from the School of Medicine, Pharmacy, Nursing, Social Work and Public Health [Program on Aging - Medical School] (65 students)

**Spring 1994 (UNC-CH)**

- MHCH 211L - Adolescent Health Services - Lab (7 students). Average student rating 4.5 (very good/excellent).
- MHCH 140(49) - Independent Study (1 student)

**Fall 1994 (UNC-CH)**

- Joint HIV/AIDS Course [Health Institutions]. Panel participant - Policies Affecting Service Delivery to Children and Families. (Student rating unknown).

**Summer 1994 (UNC-CH)**

- MHCH 140(49) - Independent Study (1 student)
- MHCH 315 - Seminar in MCH with J. Kotch. Average student-rating 4 (very good).

**Spring 1993 (UNC-CH)**

- MHCH 220 - Organization of Services for Children with Special Health Care Needs with A. Farel (5 students). Average student rating 5 (excellent).

**Fall 1993 (UNC-CH)**

- Joint HIV/AIDS Course [Health Institutions]. Panel participant - Policies Affecting Service Delivery to Children and Families. (45 students) (Student rating unknown)

5. **Other University Teaching Activities at University of Alabama at Birmingham**

- 6/2006 **Telfair, J.** “Culturally Competency in Public Health Systems of Care” , **guest lecture**, (HB 609) African American Health Issues, Department of Health Behavior, School of Public Health, University of Alabama at Birmingham, June 22, 2006.
- 3/2006 Telfair, J. “Community-based Participatory research and Evaluation”, **guest lecture**, for the course: Needs Assessment and Program Planning in Maternal and Child Health (MCH 609), Department of Maternal and Child Health, School of Public Health, University of Alabama at Birmingham, March 16, 2006.
- 11/2004 **Telfair, J.** “Child and Adolescent Mental Health: Overview”, **guest lecture**, for the course: Issues in Maternal and Child Health (MCH 600), Department of Maternal and Child Health, School of Public Health, University of Alabama at Birmingham, November 11, 2004.
- 6/2004 **Telfair, J.** “Culturally Competent Systems of Care for Services to Diverse Populations” , **guest lecture**, (HB 609) African American Health Issues, Department of Health Behavior, School of Public Health, University of Alabama at Birmingham, June 29, 2004.
- 3/2003 **Telfair, J.**, “Evaluating MCH programs Located in Community Settings: Basic Issues”, **guest lecture**, for the course: Needs Assessment and Program Planning in Maternal and Child Health (MCH 609), Department of Maternal and Child Health, School of Public Health, University of Alabama at Birmingham, March 26, 2003.
- 1/2003 **Telfair, J.**, “Service-based Cultural Competency: Measurement and Practice” , **guest lecture**, Maternal and Child Health Brown Bag Seminar Series, School of Public Health, University of Alabama at Birmingham, January 22, 2003.
- 12/2002 **Telfair, J.** “Community Organization and Development: Understanding, Developing and Sustaining Relationships in Communities”, **guest lecture**, for the course: Issues in Maternal and Child Health (MCH 600), Department of Maternal and Child Health, School of Public Health, University of Alabama at Birmingham, December 5, 2002.
- 11/2002 **Telfair, J.** “Adolescent Mental Health Issues”, **guest lecture**, for the course: Issues in Maternal and Child Health (MCH 600), Department of Maternal and Child Health, School of Public Health, University of Alabama at Birmingham, November 21, 2002.
- 11/2002 **Telfair, J.** “Transition to Adulthood-Programs, Supports and Services” **guest lecture**, for the course: Perspectives on Child Health and Development: Womb to Young Adulthood (MCH 602/702), Department of Maternal and Child Health, School of Public Health, University of Alabama at Birmingham, November 14, 2002
- 11/2002 **Telfair, J.** “Overview Issues”, **guest lecture** for the course: Issues in Maternal and Child Health (MCH 600), Department of Maternal and Child Health, School of Public Health, University of Alabama at Birmingham, November 7, 2002.
- 7/2002 **Telfair, J.** “Culturally Competent Systems of Care for Services to Diverse Populations” , **guest lecture**, (HB 609) African American Health Issues, Department of Health Behavior, School of Public Health, University of Alabama at Birmingham, July 2, 2002.
- 2/2002 **Telfair, J.** “Sampling: An introduction” , **guest lecture** for the course: Research Methods in Behavioral Sciences (HB 641), Department of Health Behavior, School of Public Health, University of Alabama at Birmingham, February 5, 2002.
- 11/2001 **Telfair, J.** “Adolescent Mental health Issues”, **guest lecture**, for the course: Issues in Maternal and Child Health (MCH 600), Department of Maternal and Child Health, School of Public Health, University of Alabama at Birmingham, November 26, 2001.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

- 11/2001 **Telfair, J.**, “Adolescent transition & Special challenges for those with chronic health care and other needs: Overview Issues”, **guest lecture** for the course: Issues in Maternal and Child Health (MCH 600), Department of Maternal and Child Health, School of Public Health, University of Alabama at Birmingham, November 6, 2001.
- 10/2001 **Telfair, J.**, “Defining and measuring service specific cultural competence for provision of care to diverse populations”, **guest lecture** for the Interdisciplinary Course, UAB School of Health Related Professions, Birmingham, Alabama, October 18, 2001.
- 11/2000 **Telfair, J.**, “Issues of Transition to Adult care for adolescents with special health care needs”, **guest lecture** for the course: Issues in Maternal and Child Health (MCH 600), Department of Maternal and Child Health, School of Public Health, University of Alabama at Birmingham, November 3, 2000.
- 10/2000 **Telfair, J.**, “Issues of Transition to Adult care for adolescents with special health care needs”, **guest lecture** for the course: Issues in Maternal and Child Health (MCH 600), Department of Maternal and Child Health, School of Public Health, University of Alabama at Birmingham, October 20, 2000.
- 6/2000 **Telfair, J.** “Community Organization and Development: Developing and Sustaining Collaborative Relationships in the African American Community”, **guest lecture**, HB 609 African American Health Issues, UAB School of Public Health, Birmingham, Alabama, July 28, 2000.
- 10/1999 **Telfair, J.**, “Issues of Transition to Adult care for adolescents with special health care needs”, **guest lecture** for the course: Issues in Maternal and Child Health (MCH 600), Department of Maternal and Child Health, School of Public Health, University of Alabama at Birmingham, October 29, 1999.
- 7/1999 **Telfair, J.** “Community Organization and Development: Developing and Sustaining Collaborative Relationships in the African American Community”, **guest lecture**, HB 609 African American Health Issues, UAB School of Public Health, Birmingham, Alabama, July 29, 1999.
- 4/1999 **Telfair, J.** “Moving On?: Factors Influences the Transition of Adolescents with Chronic Conditions to Adult care and Life”, **guest lecture**, Primary Care Grand Rounds, Departments of Pediatrics and Medicine, University of Alabama at Birmingham, April 6, 1999.
- 2/1999 **Telfair, J.** “Overview of Title XXI o the Social Security Act: State Children’s Health Insurance Program”, **guest lecture**, Policies and Programs in Maternal and Child Health (MCH 600), Department of Maternal and Child Health, School of Public Health, University of Alabama at Birmingham, February 12, 1999.
- 11/1998 **Telfair, J.**, “Community organization and development”, **guest lecture** for the course: Issues in Maternal and Child Health (MCH 600), Department of Maternal and Child Health, School of Public Health, University of Alabama at Birmingham, November 13, 1998.
- 10/1998 **Telfair, J.**, “Issues of Transition to Adult care for adolescents with special health care needs”, **guest lecture** for the course: Issues in Maternal and Child Health (MCH 600), Department of Maternal and Child Health, School of Public Health, University of Alabama at Birmingham, October 30, 1998.
- 5/1998 **Telfair, J.**, “Cultural Competence in the Provision of Services with Special health care needs”, **guest lecture** for the course: Children with Special health care Needs: Supports and Services (MCH 713), Department of Maternal and Child Health, School of Public Health, University of Alabama at Birmingham, May 22, 1998.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

- 1/1997 **Telfair, J.**, “Developing and sustaining collaborative relationships in communities” **guest lecture** for the course: Doctoral Seminar in International Health (IH 730), Department of International Health, School of Public Health, University of Alabama at Birmingham, January 8, 1997.
- 11/1996 **Telfair, J.**, “Community organization and development”, **guest lecture** for the course: Issues in Maternal and Child Health (MCH 600), Department of Maternal and Child Health, School of Public Health, University of Alabama at Birmingham, November 16, 1996.
- 9/1994 **Telfair, J.**, "Epidemiological/Public Health Social Work Approach to Assessment and Problem Solving." **Guest lecture**, College of Social Work, University of South Carolina. Columbia, South Carolina. September 13, 1994.

### 6. Other University Teaching Activities Outside of University of Alabama at Birmingham

- 02/2004 **Telfair, J.** “Conducting Research with Programs Located in Community Settings: Basic Issues”, **guest lecture**, for the course: Clinical Epidemiology (EPIC-603-01), Department of Epidemiology, School of Public Health, Saint Louis University, February 20, 2004.
- 4/1996 **Telfair, J.** “Health programming for communities of color: Issues in development, implementation and evaluation” **guest lecture** for the course: The Health of U.S. Populations of Color, School of Public Health, Department of Health Education and Health Behavior, University of North Carolina at Chapel Hill, Chapel Hill, North Carolina, April 4, 1996.
- 2/1995 **Telfair, J.** "Health and Public Health Issues Affecting African-Americans at the Individual and Community Levels" **Guest Lecture**: Fayetteville State University, Department of Social and Behavioral Sciences. Fayetteville, NC February 9, 1995.
- 10/1994 **Telfair, J.**, "Community-Based Research for HIV/AIDS Prevention Among Young Adolescents in Guilford County, North Carolina", **Guest lecture**, Blacks in the Diaspora Lecture Series, University of North Carolina at Chapel Hill, Chapel Hill, North Carolina. October, 18, 1994.
- 10/1994 **Telfair, J.**, "Understanding and Intervening with Community Based Groups and Organizations: Social Group Work in Practice", **Guest lecture**, for the Course Human Behavior and the Environment at Fayetteville State University,. October 17, 1994.
- 10/1994 **Telfair, J.**, "Family Resources and Support Services", **guest lecture**, for the course Ecology of Early Intervention, University of North Carolina at Chapel Hill, Chapel Hill, North Carolina. October 12, 1994.
- 2/1994 **Telfair, J.** "Urban Problems: A Public Health Perspective" **guest lecture**, Fayetteville State University, Department of Social and Behavioral Sciences. Fayetteville, North Carolina. February 14, 1994.
- 11/1993 **Telfair, J.**, "Racism, Ethnocentrism, and the Explanatory Model of Health Experiences" **guest lecture** presented at the Minority Social Work Seminar, Fayetteville State University, Fayetteville, North Carolina. November 8, 1993.

### 4B. Other Teaching Activities: Workshops and Inservice Trainings

#### 1. Local

- 04/2004 **Telfair, J** and Crowther, M., “Basics of Grant Writing for Service-based programs”, **workshop**, Leadership Training Seminar, for Jefferson County, Alabama Department of Human Resources, Birmingham, Alabama April 9, 2004.
- 10/2003 **Telfair, J.** “Research Grant Proposal Development: Rationale and Background”, **workshop**, UAB Clinical Scholars Fellowship Program, University of Alabama at Birmingham, Birmingham, Alabama, October 29, 2003.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

- 5/2003 **Telfair, J.** “Applied Issues of Adolescents Transition to Adult Care: An Ecological Public health Approach”, **Inservice Training** for the training conference Issues in Adolescent Health Care, Jefferson County Department of Health – Annual Nursing Conference, Birmingham, Alabama May 15, 2003.
