

**Samuel Nussbaum, M.D.** is executive vice president, clinical health policy and chief medical officer for WellPoint, Inc. He oversees corporate medical policy, clinical pharmacy programs, health improvement and quality resources, programs in clinical excellence, and health information technology to optimize care for members. His principal responsibilities include serving as chief spokesperson and policy advocate on medical issues, guiding the corporate vision regarding quality of care and its measurements, leading efforts to assess cost of care performance, and developing a strategy to foster further collaboration with physicians and hospitals to strengthen and improve patient care. He also has responsibility for HealthCore, WellPoint's clinical outcomes research subsidiary. Dr. Nussbaum is professor of clinical medicine at Washington University School of Medicine and serves as adjunct professor at the Olin School of Business, Washington University. Dr. Nussbaum served as executive vice president, Medical Affairs and System Integration, of the BJC Health System and President of its medical group. Dr. Nussbaum earned his medical degree from Mount Sinai School of Medicine. He trained in internal medicine at Stanford and Massachusetts General Hospital and in endocrinology and metabolism at Harvard and Massachusetts General Hospital, where he directed the Endocrine Clinical Group. His clinical and basic research has led to new therapies to treat skeletal disorders and new technologies to measure hormones in blood.
