

Paul R. Billings MD, PhD

Paul R. Billings MD, PhD is a board certified internist and clinical geneticist, was appointed as President, Chief Executive Officer and Director of Cellpoint Diagnostics (CPD) in February, 2008. CPD, a Mohr, Davidow Ventures backed enterprise, seeks to revolutionize cancer care through the provision of products and services focused on circulating tumor cells. Dr. Billings is also Executive Chairman of Signature Genomics Laboratories LLC, and serves on the Board of Directors of BioScale Inc., Cytellect Inc., Lipomics, Inc. and several not-for-profit public interest organizations. Until September 2007, he was Senior Vice President and Senior Geneticist at Laboratory Corporation of America Holdings Inc. He has been Professor of Anthropology (adjunct) at the University of California at Berkeley and has published extensively on topics in immunology, genetics and medicine. Dr. Billings has interest and expertise in diagnostics in medical care and genomic medicine.
